

"THE LEDGER HOUSEHOLD."

Premium Catalogue and Bargain List No. 1.

SPRING OF 1895.

[Copyright by Robert Bonner's Sons.]

The publishers of the New York *Ledger* have decided to start a new department under the above title. Its object will be to supply the household wants of our readers with reference to scores of articles not generally advertised, as well as with meritorious novelties, as fast as they may appear. The literary charm of the *Ledger* is the key to its success; but we propose, by this new department, to give all of its readers the chance to secure some article they want at such a saving in price that the paper itself will not only cost practically nothing, but will be a source of profit to those who watch "The Household" column from week to week. Everything offered will be good. It will be exactly as represented and so guaranteed. The secret of the matter is simple. We have arranged to procure the various lines of goods we shall offer from manufacturers direct, at the wholesale, thousand or carload price, as the case may be. Any reader of the *Ledger*, whether a yearly subscriber or patron of his local newsdealer, will be admitted to the advantages of "The Household."

Some Remarks to Watch Owners.

It is deemed advisable to insert here a few general remarks by way of caution to those who may not be thoroughly familiar with the peculiarities of the watch, simply as a machine. In point of fact, it should be remembered that even the simplest watch is a very complex and delicate piece of mechanism. It is composed of scores of parts, some of them so small that they cannot be handled except under a magnifying glass. It is apparent, therefore, that the greatest care should be exercised in handling it. It should be wound regularly once a day, care being used not to turn the thumb piece so rapidly as to bring it up at the end with violence, or there will be danger, especially in cold weather, of breaking the delicately-tempered steel mainspring. It should not be thumped or dropped, because either the mainspring may be broken in this way, or the coils of the pulsating hairspring, which regulates the balance-wheel, may become entangled by overlapping each other, resulting in a quickening of the beat and making the watch run too fast. The watch never should be opened in a dusty place. At night it never should be laid upon a marble-top table, because the sudden change in temperature subjects the delicate steel portions of the machinery to an unnecessary strain on account of contraction of the metal.

All the watches offered in "The Ledger Household" are absolutely guaranteed to be received in perfect running order. We take the risk of any accident that may happen to the watch in transit, and after it has been received, we do not guarantee it against abuse or carelessness on the part of its owner. In other words, we guarantee the watch and not the person into whose hands it may fall. Every watch will be carefully tested and regulated before it is sent out, but if it should meet with any accident *en route*, which very rarely happens, we will make the damage good. If, therefore, the watch should be received in bad condition, it should be returned promptly within three or four days at least, which will give ample time for proper examination. No one should attempt to take the works of the watch to pieces or otherwise tamper with it, because in unskilled hands, by this process, the movement will be ruined, when in fact there is probably nothing serious the matter with it. We do not, of course, undertake to keep the watch clean, that depends upon its owner and the care observed in handling it. If the watch is received running correctly, it is all right.

No matter what statement may be made by any person from whom the watch was not bought, with reference to the number of jewels in the movement, or any other point, our readers may rely upon it that the representations made in the description of each watch are absolutely correct in every particular. If any watch should not meet the approval of the party receiving it, the money will be promptly refunded, if the watch be returned at once by registered mail. As we use nothing but the product of companies with well-established reputations, it will scarcely ever happen that there will be any trouble or annoyance resulting from the receipt of a watch not in perfect condition.

FREE TO LEDGER READERS.

* This is one of the most serviceable watches ever made, which is a stem-winder and stem-setter, having all the modern appliances known to the watchmakers' art. The case is GILT or NICKEL, according to choice. It is two inches in diameter and three-quarters of an inch thick.

The cut shows the correct shape. Remember, this is no toy nor sun-dial, but an ordinary modern watch, which will last for years, and one which any person may be proud to carry in his vest pocket. It is guaranteed by the manufacturer, and if not found exactly as represented, this guarantee is assumed by us. A watch like this a generation ago would have cost \$20, even if it could have been produced, but the fact is that it contains appliances unknown at that time.

In addition to the watch we send in every instance a neat and serviceable chain, so that the outfit will be ready to put on and wear as soon as received.

HOW TO GET IT.

We do not sell this watch without the paper, and no one can secure one of these splendid time-pieces by itself.

We will send this watch to any person who will send us a

CLUB OF ONLY THREE YEARLY SUBSCRIBERS

to the New York Ledger.

Understand that you pay nothing for the watch; but send us three names and addresses of subscribers to the New York Ledger, with \$2.00 for each subscriber, who will receive the paper for one year, postpaid, and we will send you the above-described watch and chain, postpaid, to your address absolutely free of charge.

No one, therefore, need be without a watch,

*THE HENRY FRANCIS du PONT
WINTERTHUR MUSEUM
LIBRARIES*

Digitized by the Internet Archive
in 2010 with funding from
Lyrasis Members and Sloan Foundation

equal for keeping time to any in the neighborhood, a single day longer. Indeed, it will not take a day for any one to get up this small club of only three yearly subscribers at \$2.00 each for the best family newspaper in the United States.

Try it and see for yourself how easy it is. Remember that this offer is not made for an unlimited period, so do not lose time getting up your club.

If any one is unwilling to spare even the little time required to raise the club, we will send the watch and chain with the *New York Ledger* for one year to any one address for \$3.50.

REMEMBER

that we do not care to dispose of the watch with single subscribers, but our object in this unparalleled offer is to give the watch free to our friends who will raise the clubs of three, because we want the *New York Ledger* to go for the coming year into every home in the country. To accomplish this we are willing to make the sacrifice which this offer entails.

DO NOT LOSE TIME,

but attend to this matter the very next day after you see this offer.

"LEDGER MODEL."

This is a watch suitable for father or son. We call it "The Ledger Model" because, as patriotic Americans, we are especially proud of this production of American industry. The movement (or works) is made according to the celebrated

Waltham Riverside model. The case is a gem of the jeweler's art, being a gold-filled case, with two heavy sheets of 14-kt. gold, making a case that is for all purposes as good as solid gold, and warranted for twenty years. Since the "Ledger Model" was first offered there has been an improvement in the style and quality of this movement, of which we give our readers the advantage without an increase of price. Before

the movement was gilt, but now we can offer it in damaskened nickel, eleven jewels, which is much more beautiful and more expensive. The price remains the same, \$20.00. Delivery guaranteed. Heretofore we have been able to give it only in smooth or engine-turned cases, but now we can furnish it, if preferred, with a vermicelli center, as shown in the cut. In ordering, please mention the pattern of case desired, whether plain engine-turned, or with the vermicelli center, hand engraved.

THE VANGUARD.—MEN'S SIZE.

Constant improvements and embellishments are being made in the movements of watches turned out of the great factories. The very last announced to the public by the American Waltham Company is called "THE VANGUARD." This movement is stem wind and stem set, with 17 ruby jewels in raised gold settings, double ex-

THE MOVEMENT.

posed pallets, embossed gold patent micrometer regulator, compensation balance in recess, adjusted to temperature isochronism and position, patent safety barrel, exposed winding wheels, patent Breguet hair-spring, hardened and tempered in form, elaborately finished nickel plates, with gold lettering, plate and jewel screws gilded, steel part chamfered, double sunk dial. The Vanguard is the finest 18 size movement in the world. This movement comes in several cases.

- | | |
|--|---------|
| 23 A is a 14 kt. solid gold U. S. assay hunting, engine turned case..... | \$60.00 |
| 24 A is a 14-kt. gold-filled hunting, 20-year engine-turned case..... | 45.00 |
| 25 A is a 2-oz. coin silver, either hunting or open face, engine-turned case.... | 38.75 |

Official Railroad Watch.

Many of the railroad companies of the country, in order to avoid accidents that might arise from any discrepancy in time-pieces, have compelled their conductors and engineers to carry a specified watch. This in many cases is what is known as the *Crescent Street Movement*, made at the Waltham Watch Co., Waltham, Mass. This movement comes in various cases more or less expensive, according to material. The movement in all the cases, however, is the same. The movement is stem wind and stem set, 17 ruby jewels in solid gold settings, compensation bal-

ance, adjusted to temperature, isochronism and position, patent regulator, patent Breguet hair-spring, hardened and tempered in form, fine glass enamel double sunk dial, one of the finest full plate movements in the world.

- 22 A is a solid nickel silver, open face, screw case, dust proof..... 25.00

The Ladies' Special Bargain.

1 A.

No. 1 A is what we designate our Ladies' Special. It is a beauty in design, and as good as it is pretty. It is in a case of solid gold, guaran-

teed to be 14-karat, U. S. Assay. It is engraved in selected designs of approved French pattern, for the French still lead the world in the production of the beautiful in engraving as well as painting. The movement, or works, as sometimes called, is American, of either Elgin or Waltham make, as the purchaser may prefer. In the production of timekeepers these two firms are not surpassed by any when accuracy and durability are considered. Hence we use no foreign movements. As to which of the two factories named turns out the better watch we will not attempt to say, because the best judges maintain that no difference can be detected, and that the selection must be a mere matter of fancy. They are the same price.

These movements are completely jeweled after the best modern methods, with compensation balance, patent safety pinion, hair-spring tempered to form, and every other device that has proved itself of value in securing perfection in a lady's watch. It is a stem-setter and stem-winder.

We will send this elegant timepiece to any reader of the *Ledger* for only \$23.50, delivery in perfect order guaranteed and charges prepaid, or we will send both this watch and the *Ledger* for an entire year (fifty-two numbers) for only \$25.00, postage paid and delivery guaranteed.

A Ladies' Watch with Gold-Filled Case.

No. 2 A is a watch to keep perfect time, but a little less expensive than one in solid gold case. This cheapening is accomplished by making the cases out of plates of metal of which the outside

2 A.

is fine gold but the inside is base material, strong and trustworthy as a protector of the movement, but, of course, lacking the beauty of the gold exterior. These cases are as well made and as elegantly chased as though solid gold clear through. The manufacturers warrant them to wear for fifteen years without exposing the inner base metal, and the *Ledger* assumes the guarantee, as there never was one known in the trade to fail. The watch, therefore, will have the same appearance as solid gold for fifteen years. The movement is a seven-jeweled either Elgin or Waltham, with stem set and stem wind and all the latest improvements. This watch retails in the country for \$20. We will send this watch to any address, delivery prepaid, for only \$14.75, or with the *Ledger* for one year and the watch prepaid, for \$16.25.

Ladies' Ruby-Jeweled Solid Gold Watch.

For those who desire a watch of the very finest grade, with all the most expensive attachments and latest improvements, we offer 3 A. The movement is nickel, of either Waltham or Elgin manufacture, according to choice, and comes in hunting-case only. The case is either smooth-polished, or engraved as shown in the cut, or engine-turned pattern. It is stem wind and stem set. The case is made of solid gold, 14-kt. fine,

3 A

United States assay, this being the most serviceable grade of fineness, because the alloy not only gives the gold a richer color but hardens it. The movement has fifteen fine ruby jewels, raised gold settings, exposed pallets, compensation balance, patent Breguet hair-spring, hardened and tempered in form. We will send this watch, delivery guaranteed, warranted to be exactly as described above, for \$29.75, or we will send the watch with the New York *Ledger*, postpaid, for one year, both for \$31.25.

LADIES' SKYLIGHT WATCH

4 A

Is a very fashionable ladies' watch. The style is known as skylight, because it has a small crystal

of French glass inserted in the center of the front case so that it may be consulted without opening it. The case is the kind known as gold-filled, being made of solid gold in two thick plates, stiffened in between with a sheet of very strong composition metal, and is guaranteed to wear like solid gold for fifteen years. The watch is either Elgin or Waltham according to choice, and a stem winder and stem setter. It has seven jewels, compensation balance, patent Breguet hair spring, hardened and tempered in form, white porcelain dial and tempered blue steel hands. We will send this watch, delivery guaranteed, to any address in the United States for \$12.50, or with the New York *Ledger*, postpaid, \$14.00, for both paper and watch.

Gold Hunting-Case Waltham or Elgin Men's Size Watch.

This watch is a very stylish, reliable timepiece made upon the famous Riverside model, which is thinner than the ordinary style of movement. In other words, a watch made on this model is materially less in thickness than others from front to back when the cases are closed. This form does not arise from any less metal in the case, but from the mechanical style of the movement; its advantage is in being less bulky when carried in the vest pocket. Both the Elgin and Waltham Companies now make this style of movement, which has the stem set and stem wind, seven jewels, compensa-

10 A

tion balance, safety pinion, patent Breguet hair spring hardened and tempered in form. The case is warranted to wear like solid gold for fifteen years. The case is engraved as shown in cut. We send this watch to any of our readers, delivery guaranteed, for \$14.25, or with the New York *Ledger* for one year, for \$15.75.

"APPLETON TRACY & CO.," WALTHAM.—MEN'S SIZE.

The "Appleton Tracy & Co." movement is one of the celebrated watches of the world. The works are full-jeweled, with 15 extra-fine red ruby jewels in solid gold settings, compensation balance, safety pinion, stem winding and setting, Breguet hair spring, special adjustment to temperature, isochronism and position, and all the very latest improvements. This watch took the first prize at the World's Exposition in Paris

HUNTING ENGINE-TURNED GOLD WATCH, MEN'S SIZE.

This watch is an Elgin or Waltham movement in an engine-turned 14-kt. gold-filled case, guaranteed to wear like solid gold for twenty years. It is stem wind and stem set, with seven jewels,

14 A

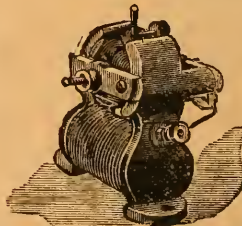

11 A

compensation balance, safety pinion, patent Breguet hair-spring hardened and tempered in form, porcelain dial, Roman or Arabic characters, hands of blue tempered steel. We will send this watch, delivery guaranteed, for \$16.75, or with the New York *Ledger*, postpaid, for one year for \$18.25.

against all competitors, both American and foreign. We will deliver this watch to any address in the United States, works as above, in any of the following cases:

- | | |
|--|---------|
| 13 A is a solid 14-kt. U. S. assay, 40 dwt. hunting case, engine turned..... | \$40.00 |
| 14 A is a 15-year gold-filled hunting case, handsomely engraved..... | 22.50 |
| 15 A is a 15-year gold-filled open face case, handsomely engraved..... | 20.00 |
| 16 A is a 2 oz. coin silver open face, or hunting case, engine turned..... | 17.50 |
| 17 A is a solid nickel silver open face, dust-proof case..... | 13.90 |

The Lilliputian Motor.

This is an electric motor which is only 2½ inches high. Although it is so little, it is so powerful that it will run many pieces of toy machinery, and is really a wonder. It can be worked with either wet or dry battery. We send a carbon and zinc frame, which is reversible, so that the zinc when worn at one end can be changed to the other, thus saving expense in batteries. This machine cannot fail to interest any one, whether young or old, who has a taste for electrical experiments. It is sent, postpaid, to any address in this country for only \$2.00, or with the paper, postpaid, for one year for only \$3.50.

An Elgin or Waltham Bargain, Men's Size.

Sometimes it is desirable for all persons to study economy in making purchases in preference to other considerations. In order to accommodate such, we have procured a new style of case,

8 A

In which we put a high-class Waltham or Elgin movement. By this combination any one may secure a watch equal to the best in running qualities, and as durable as those of the highest price, and as precise and accurate as any piece of human mechanism for the measurement of time. We save our readers money, in the first instance by cheapening the case, and in the second by handling it without reference to profit. Every one knows what Elgin and Waltham are, and we do not need to guarantee either one of them; but as a matter of fact, to cover every remote liability to accident in transportation, we do guarantee these watches to run correctly, and, in case of failure, to return the money or furnish a substitute for any faulty timepiece that might be received by our subscribers. The case with which this watch is furnished is made of stiffened silver. In other words, in order to give strength sufficient to make the case durable without making the metal thick and heavy, the silver is strengthened by a nickel plate, introduced in such a manner as to be entirely hidden, and, were it not explained, the purchaser would not be able to tell it from a heavy solid coin-silver case. This

watch does not come in hunting-case—open face only, with a heavy beveled plate-glass crystal, strong, durable and beautiful. The dial is marked in either Roman or Arabic characters. In order to prevent the possibility of the hands catching, the dial upon which the second hand is mounted is sunk below the level of the surrounding face. This is emphatically a watch for the times, and costs such a trifle that any one can afford to buy it, simply with a view to carrying it for a few years until the return of general prosperity, when the movement may be changed into a gold case. This watch will be sent, delivery guaranteed, to any address in the United States for \$6.50, or with the *New York Ledger*, postpaid, for one year, for only \$8.00 for both watch and paper.

Open Face Gold Watch, Men's Size.

This is an Elgin or Waltham movement, open face, with beveled-glass crystal, warranted to wear like solid gold for fifteen years; stem wind and stem set, containing seven jewels, compensation balance, safety pinion, patent Breguet hair spring hardened and tempered in form. This watch is

9 A

a great bargain and a perfect timepiece. The case is handsomely engraved as shown in the cut. We send this watch, delivery guaranteed, to any of our readers in this country for \$11.90, or with the *New York Ledger*, postpaid, for one year, \$13.40.

Ladies' Watch, Silver, Embossed with Gold.

This watch is very ornate in design, the effect of the contrast in color between the silver and gold being extremely pleasing. The body of the case is coin silver, solid, of standard fineness, upon the surface of which is laid an ornamentation in solid gold. The gold ornamentation is applied in relief, and is beautifully engraved. The movement is either Elgin or Waltham, at the same price, to suit the preference of the purchaser. It is stem wind and stem set. It has seven jewels, compensation balance, safety pinion, patent Breguet hair-spring hardened and tempered in form. We may remark here (in parenthesis) that no Waltham or Elgin watch is

5 A

made with less than seven jewels, although some country watchmakers will sometimes say, in the case of watches they themselves have not sold, that they contain only three, four or five jewels. Such statements may always be considered as erroneous. We send this beautiful watch to any address in the United States, delivery guaranteed, for \$12.75, or with the New York Ledger for one year, \$14.25. This style of watch may also be had in skylight pattern, which has a small crystal in the center of the front case, so that it may be consulted without opening it, for \$11.75, or with the paper for one year, postpaid, \$13.25 for both watch and the paper.

Coin Silver Skylight, Engine Turned.

A very popular style of watch for ladies at a moderate price, is the Elgin or Waltham 7-jewel stem wind and stem set movement in a coin silver case, skylight pattern; it is engine turned. The movement has all the latest improvements, compensation balance, safety pinion, patent Breguet hair spring, hardened and tempered in form.

We will send this watch to any address in the United States, postpaid, delivery guaranteed, for

6 A

\$8.75, or with the New York Ledger, postpaid, for one year, \$10.25, for both watch and paper.

THE NEW STANDARD WATCH.

For everyday use for men or boys, the new Standard watch is giving excellent satisfaction; the movement is damaskened nickel with seven

7 A

jewels, stem wind and stem set. The case is solid nickel, open face, with a heavy beveled-glass crystal. We will send this watch, postpaid, delivery guaranteed, for \$3.65, or with the New York Ledger for one year, postpaid, \$5.15.

GOLD HUNTING-CASE WATCH, 11 JEWELS.

This watch comes with either Waltham or Elgin movement in a gold-filled, engraved case, guaranteed to wear like solid gold for fifteen years. It has eleven jewels in settings, compensation balance, safety pinion, patent Breguet hair-spring hardened and tempered in form. Stem wind and pendant set, made after the fa-

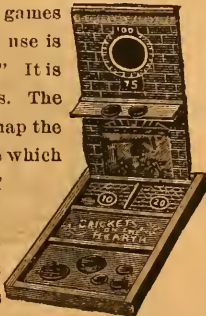

12 A

mous Riverside model. It can be had in hunting or open-face case at the same price. Price, delivered to any address, delivery guaranteed, \$16.50, or with the New York *Ledger* for one year, postpaid, \$18.00.

A Popular Game.

One of the most popular games ever invented for indoor use is "Cricket on the Hearth." It is played with ten crickets. The plan of the game is to snap the counters through the hole which counts 100, on the shelf which counts 75, or in the lower compartments which count 20 or 10, as the case may be. It is sent by mail, postage paid, for only 25 cents.

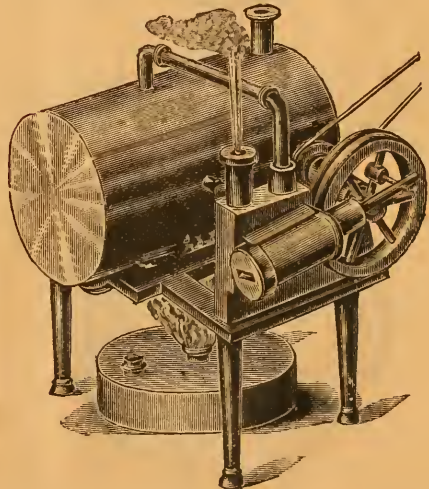

TOY UPRIGHT ENGINE.

The interest of young folks in miniature machinery never flags. The most popular of all toys of this class is perhaps the upright engine in this cut. It is composed of 41 separate parts, and each one is fully tested before leaving the factory. It is securely packed, and will be sent to any of our young friends by express, receiver paying charges, for only \$1.00, or with the paper for one year for \$2.75. If the purchaser prefers to have it mailed, it will be so sent if 30 cents be added to the above price to pay postage and packing.

Victor Steam Engine.

The cut exactly represents this popular toy engine. The boiler is polished nickel, the frame is enameled, and the balance-wheel turned bright.

It is a new design, made on the best plan for durability and power. It is put up complete with a lamp and instructions for running it. It is sent, postpaid, to any address for 75 cents.

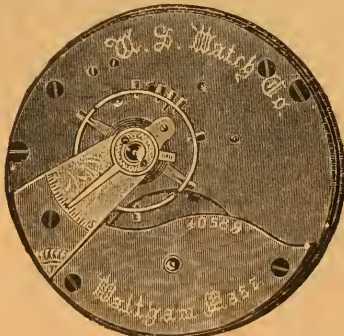

UNITED STATES WALTHAM WATCHES.

Many people prefer to any other the watches made by the United States Watch Co., of Waltham. This is a newer watch than that of the American Watch Co., at Waltham, and combines all the latest improvements;

No. 44 A—The Case.

as for ourselves, we are unable to say that there is any practical difference between the movements of this company and the American Waltham Company or the Elgin. At any rate, they are all so nearly perfect

No. 44 A—The Movement.

that we give the same warrant for each. There is one advantage, that the United States Waltham watch comes a trifle cheaper than the product of either of the

other companies named, for the same grade of movement. We think it is largely a matter of taste as to which of the three to choose.

No. 44 A. shows an engraved case, warranted to wear like solid gold for fifteen years. It may be had in engine-turned pattern if preferred, at the same price. A cut of the movement is also shown. This movement has seven jewels, safety pinion, compensation balance, patent Breguet hairspring, stem wind and stem set. This watch is hunting case. We will send this watch, postpaid, delivery guaranteed, for \$14.40, or with the *Ledger* for one year, postpaid, for 52 weeks, for only \$16.00 for both watch and paper.

United States Waltham, Ladies' Size.

No. 42 A shows both case and movement of a very elegant ladies' watch. The case is engraved, 14-kt. gold, warranted to wear for fifteen years. The move-

No. 42 A—Case.

ment is eleven jewels, nickel (two pairs in settings), safety pinion, compensation balance, stem wind and

No. 42 A—Movement.

stem set. We will send this watch to any of our lady readers for only \$17.00, or with the *Ledger* for one year for \$18.50, both watch and paper.

No. 43 A is also a ladies' watch (United States Waltham), in the same quality case as No. 42 A. The

PAT. A11.
No. 43 A—Case.

movement is stem wind and stem set, containing seven jewels, safety pinion, compensation balance.

No. 43 A—Movement.

This is sent postpaid to any address, delivery guaranteed, for \$14.25, or with the *Ledger* for one year, postpaid, for only \$15.75 for both watch and paper.

The G. A. R. Ring.

We have had made especially for us a solid gold ring, with setting modeled after the bronze lapel button of the G. A. R. The setting is made of black onyx,

and the button is of gold, set in the onyx. Remember, this ring is not plated in any part, either band, shank or setting. Furnished in any size, and sent, delivery guaranteed, for \$6.00,

FANCY VIOLINS.

No. 27 A.
Violin, price, \$6.00.

No. 119 A.
Violin, price, \$5.00.

No. 27 A is a violin, brown polished wood, ornamented back. We send this by express, receiver paying express charges, for \$6.00, including bow.

No. 119 A is another violin, white polished body, scroll work in gilt on the back. We send this violin, with the bow, by express, the receiver paying express charges, for only \$5.00.

Compass Charm.

No. 919 A shows a compass charm for watch chain. It is just the thing for a yachtsman. It is gold-filled, with a glass crystal on both sides, so the charm can

No. 919 A.

never get wrong side out when hanging on the chain. The needle shows just the same from both back and front, being hung on a pinion in the middle of the charm between the crystals. To be sent to any address upon receipt of \$1.00, or will be sent as a present, free of cost, to any one who will raise a club of two yearly subscribers to the *Ledger* at \$2.00 each.

No lengthy description is necessary for these lockets. The cut in each case is an accurate representation of the article. All the prices named include mailing, the expense of which we, of course, stand, and safe delivery is guaranteed. They are warranted to be exactly as represented.

A SUPERIOR POCKET-KNIFE.

We send this knife with either three or four blades, as the purchaser may desire. It is imported, made of hand-forged steel, with either a stag or smooth horn handle. We send this knife, delivery guaranteed, postpaid, for only 80 cents, or we will give it free of cost to any one who will

No. 4

send us a club of only two yearly subscribers to the New York Ledger at \$2.00 each. We have this knife in a pearl handle, which we will send, postpaid, to any address, for only \$1.25. The pearl handle knife comes only with four blades, as the three-bladed knife of this grade is not put up except with the horn handles as described above.

Women's Waterproof Garments.

At Prices Greatly Reduced.

What the mackintosh is to the man, the Inverness and the Golf are to the woman, for outdoor wear in windy and wet weather. These garments have cost at retail from 8 to 14 dollars each, but the publishers of the *Ledger* have arranged with the manufacturer to supply their readers with these articles at the wholesale, thousand price, and this reduction brings the

cost to about one-half the original price. These garments are made up in both double and single texture, and are stylish wraps in cool as well as wet weather. The outside cloths, navy-blue and black, are in the double texture goods, lined with a pretty plaid lining, the rubber being between the cloths, and not showing at all.

They are made in sleeveless Inverness shapes, and the regular sizes are, bust, 32; length, 52; 34-54, 34-56, 36-56, 36-58, 38-60, 40-62.

Other sizes will cost \$2.00 extra. On these garments the single cape is about 27 inches long. The triple capes are 5, 9 and 26 inches, and are made with the collar attached to the capes, so that the latter can be worn as a shoulder-wrap separately.

Two grades, of both single and double texture, can be had in different colors, as follows:

Women's single texture, diagonal (unlined cape) Inverness, black, tan and navy-blue, for \$3.50.

Women's single texture Inverness, wool-surface Henrietta (unlined cape) black and navy-blue, for \$5.00.

Women's double texture Inverness, wool-surface Henrietta, long cape attached, black and blue, for \$6.50.

Same with triple capes detachable, collar on capes, for \$7.75.

The new garment called the Golf, made from Henrietta cloth, wool surface, black or navy-blue with long cape detachable, and hood on back of cape. Hood lined with plaid silk. Price, \$8.50.

These goods have been reduced about one-third from any previous prices. All orders are sent by express, receiver paying charges, which are but a trifle, the goods being light. All goods are shipped from the factory within ten days from the day of receipt of order.

The *Ledger* gives an absolute guarantee that these goods will be delivered exactly as represented.

THE SUNOL SNAP-SHOT CAMERA.

This is the most compact and the lightest camera made. It weighs less than three pounds, and makes an instantaneous photograph 4x5 inches. A picture can be made without opening the case, as the camera can be focused by means of a spy hole. The shutter is both set and released from the outside. If it is desired to use it for time exposure it can be mounted on a tripod or set upon a table, and an

exposure of any length of time can be made by simply working the shutter. This is a splendid traveller's camera, as it is not only compact and light, but effective for quick work. With the "Sunol" outfit the amateur operator can do his own developing, printing and finishing cheaply and quickly. An exposure of one second takes a landscape or portrait with the "Sunol." With this instrument the finest pictures may be produced for a few cents a dozen, including the negative. It has a fine single lens, view finder, and "Barnett" holder. It is provided with one holder, at the price named below, but it will accommodate five holders. No. 1: Handsomely polished walnut finish with 1 holder, \$5.00. No. 2: Covered with black seal grain leather, with 1 holder, \$7.50. Extra holders, single 75 cents; double \$1.00 each.

Developing and printing outfit for "Sunol," sold separately, is as follows: 1 doz. 4x5 dry plates, 1 developing tray, 1 fixing tray, 1 ruby lamp, 1 package developer, 1 lb. hypo soda, 1 4x5 printing frame, 2 doz. sheets blue process paper. Not mailable. Sent by express, receiver paying charges, for \$3.00.

WATERPROOF OVERCOATS.

The Mackintosh brought within the means of every one.

The mackintosh—a thin cloth coat impervious to rain—is universally used abroad as an overcoat for winter, spring and autumn. The mackintosh is a regular overcoat of fine quality, so far as appearances go, and only the wearer knows that it is perfectly waterproof and wind-proof.

The ordinary cost of a mackintosh ranges from \$14.00 to \$30.00, but one of the American manufacturers has agreed to sell single coats to our subscribers at the wholesale price per thousand, and this reduction brings the cost to about one-half the usual price.

The outside and inside cloths are coated with rubber, rolled together, cut, made up, and thoroughly cured, so that they are unchangeable in any climate. They are stitched with a solid seam, and they will protect the wearer in any ordinary exposure to stormy weather. They are 52 to 53 inches long, made with detachable cape; will fit and wear well. The regular sizes are 34, 36, 38, 40, 42, 44 and 46. Other sizes will cost \$2.00 additional. In ordering, send exact bust measurement over the under coat.

A double-texture diagonal—No. F 27 blue, F 23 black, or F 26 tan—cape coat, with seams double-stitched, for\$5.25.

A double-texture Henrietta—No. 22 B black, or 23 B blue—cape coat, with seams double-stitched, for.....\$6.00.

A double-texture, all-wool tricot—No. 223 B

black, or 224 B blue—cape coat, seams sewed, cemented and strapped, for\$9.00.

These goods are sent by express, the receiver paying charges, which are small, owing to the lightness of the package.

SPECIAL HOUSEKEEPERS' LIST OF USEFUL ARTICLES.

There is a large assortment of articles of domestic use for which the demand never ceases. For the accommodation of housekeepers who read the *Ledger*, we have secured the various assortments of specially selected goods at bargain prices offered below:

Special Offer No. 1.

11 USEFUL ARTICLES FOR ONLY \$5.10.

1 pair cotton blankets, eiderdown finish, very handsome, with striped border; weight 4 pounds; size, 66 by 62 inches.

1 white honey comb quilt, size 11 by 4 feet.; very handsome design.

1 turkey-red table-cover, handsome design, washable and serviceable, 2 yards square.

4 heavy linen huck towels, 19 inches wide, 42 inches long, colored border.

2 large German damask towels, fancy colored borders, fringed ends, 21 inches wide, 42 inches long.

2 large, heavy Turkish bath towels, 22 inches wide, 45 inches long.

ALL FOR \$5.10.

Special Offer No. 2.

1 heavy German linen table-cloth, fancy border and fringed, 2½ yards long, with very pretty design.

1 carving knife and fork, with patent guard, ebony handle and 8-inch rolling blade.

1 set 6 knives and 6 forks, ebony handles, fancy bolsters. These are of first quality steel and finely finished.

1 dozen solid German silver teaspoons, fancy design.

One-half dozen solid German silver tablespoons, to match teaspoons.

ALL FOR \$5.00.

Special Offer No. 3.

1 heavy German linen tablecloth, fancy border and fringed, 2½ yards long. This also is of a very pretty design.

1 carving knife and fork, with patent guard, ebony handle and 8-inch rolling blade.

1 set 6 knives and 6 forks, ebony handles, fancy bolster. These are also of first quality steel and finely finished.

One-half dozen steel teaspoons, fancy design.

One-half dozen steel tablespoons, to match teaspoons.

ALL FOR \$4.00.

All above goods under the various offers are sent by express, the receiver paying express charges.

Fancy Turkey red tablecover, fringed, wide floral border, with very handsome design in center, encircled by a floral wreath. It is two yards square, washable and serviceable. Price, delivery guaranteed, postpaid, \$1.25.

Two large, heavy white Turkish bath towels, 20 inches wide and 42 inches long, of superior quality and very desirable. Price, delivery guaranteed, postpaid, \$1.00.

Three Knives for One Dollar.

Three (3) imported pocket-knives will be delivered to any subscriber upon receipt of one dollar. They are fairly good knives, with three

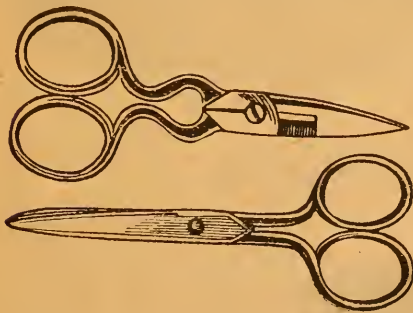

Lot No. 5.

blades each, brass lined, stag handle. Length of handle, three and one-half inches; large blade, two inches. This price could not be obtained except in lots of three, and they cannot be furnished singly.

We will send the three knives, postpaid, in connection with a yearly subscription to the New York Ledger, for only \$2.50, for both the lot of knives and the paper for a term of one year or 52 numbers.

Pairs of Scissors in Sets.

We will send, postpaid, one pair of nickel-plated ladies' scissors, five and one-half inches long, and one pair buttonhole scissors, four and

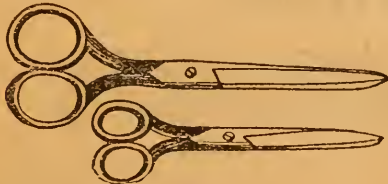

Nos. 1 and 2

one-half inches long, with brass center, screw gauge, both of best solid steel, highly finished and fully warranted, for \$1.00.

These two pairs of scissors are shown in reduced size in the above cut. We will send this set to any of our readers, with the New York Ledger for one year, postpaid, for only \$2.50.

We have another set of two pairs of ladies' scissors, as shown in reduced size in the accompany-

Nos. 3 and 4

ing cut, which we will send, delivery guaranteed, for only \$1.00 for the set. These scissors are of

two sizes, four and a half inches and six inches, and only sold together. They are fully nickel plated and highly polished.

We will send this set, postpaid, with the New York Ledger, for one year, postpaid, to any address, for only \$2.50, for both the scissors and the paper.

SHEARS AND SCISSORS COMBINATION.

We have a combination consisting of two articles. They are a pair of shears seven and one-half inches long, and a pair of scissors five inches long. Both shears and scissors are of forged steel, fully nickel plated and highly tempered. They are of the best quality, and just what is needed in every household. These two articles are sent together, postpaid, delivery guaranteed, for only \$1.25. Any lady who may receive these articles will admit that she has a bargain.

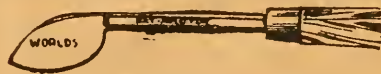

TO PARE YOUR CORNS.

We have something new in a toilet article in the shape of a steel knife for cutting corns, an operation, unfortunately, necessary to many who wear modern foot gear. It closes in a sheath like an ordinary knife, and is small and can be carried in the pocket as handily as a pen-knife.

Sent, postpaid, to any address for only 60 cents.

We have another form of corn-knife shown in the cut below which has its advantages. This knife is made of the finest English razor steel, highly

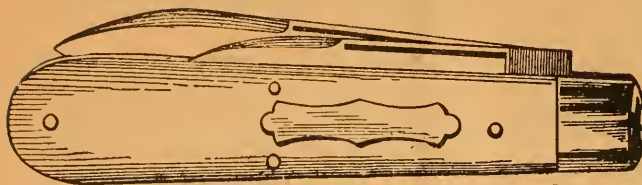

tempered and finely finished, with snakewood handle. This knife cannot be put to any other use, and will therefore be always in good condition, and will do the work for which it is intended with perfection. Delivered for 30 cents, postpaid.

A COMPLETE MANICURE SET.

A manicure set is as indispensable to the toilet of either lady or gentleman as a tooth brush. This set consists of one pair of nail scissors, bent blades, hand forged, one corn knife, with 4-inch white bone handle, and one solid steel nail file, with 4-inch white bone handle. This combination commends itself. It will be sent complete to the address of any reader of the Ledger, postpaid, for only \$1.00, or it will be sent free as a premium for a club of only two yearly subscribers to the Ledger at \$2.00 each.

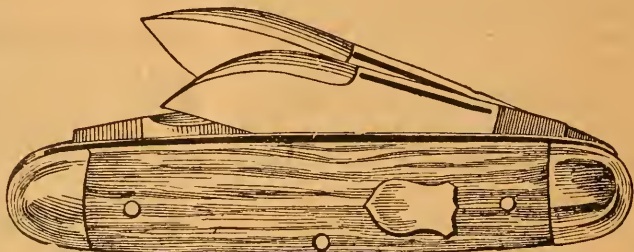

EXTRA STRONG AMERICAN JACK-KNIVES.

No. 1

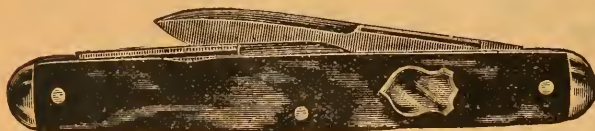

Two hand-forged blades, manufactured of best crucible steel, with either stag or ebony handle brass lined. This knife is highly tempered, finely finished, and an excellent knife for hard work. Price, delivered, postpaid, 65 cents, or it will be sent free as a premium, delivery guaranteed, for a club of only two yearly subscribers to the *New York Ledger* at \$2.00 each.

Three hand-forged blades, manufactured from the best crucible steel, stag handle and brass lined. This knife is highly tempered and finely finished and ready for use by the farmer. It cannot be excelled. Price, delivered, postpaid, \$1.00, delivery guaranteed, or we will send this knife, free of all cost, as a premium to any one who will raise a club of only two yearly subscribers to the *New York Ledger* at \$2.00 each. It will be observed that this is an especially liberal offer.

No. 2

A VERY FINE POCKET-KNIFE.

No. 3

The accompanying cut shows a very popular style of pocket-knife. It has three blades, either stag or smooth horn handle, imported hand-forged steel. We will send this knife, postpaid, to any address, for only 70 cents, delivery guaranteed, or we will send it as a free gift to any club raiser for a club of only two yearly subscribers to the *New York Ledger* at \$2.00 each.

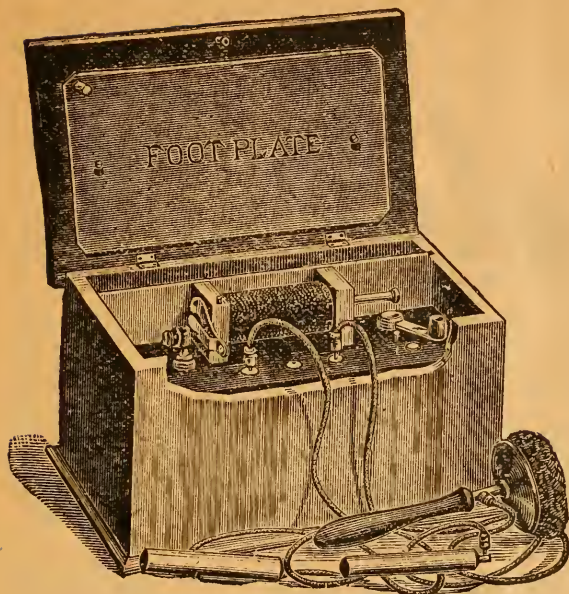

We have another knife with three blades, imported hand-forged steel, but with a tortoise shell or pearl handle, postpaid, delivery guaranteed, for only \$1.00, or we will send it with the *New York Ledger* for one year for only \$2.50, for both the knife and the paper.

CHRISTY KNIVES.

One of the most simple and popular of recent inventions for the benefit of the housekeeper is the Christy knife. This knife is ground on one side only and "on the scallop." It is, therefore, a simple combination of saw and knife, and will cut hot bread or cake without "saddening" it. They are sold only in sets of three, as follows: bread knife, 14 inches long; carver, 11 inches long; paring knife, 7 inches long. They are of finest steel, heavily nickel-plated, and are fully warranted. A set of these will be sent to any of our housekeeper readers, postage paid, for only 90 cents,

ELECTRO-MEDICAL BATTERY.

This electro-medical apparatus is operated by dry battery, thus dispensing with acids, chemicals and liquids. It is first-class in every particular, and is worked with an automatic cut off. For doctor or patient, this electro-medical apparatus is the most convenient and reliable. It is reliable because with its dry battery less care is necessary to avoid getting it out of order than is required with any other form. The entire absence of acids, liquids or salts will be appreciated by any one who ever had occasion to use a medical battery. The strength of the various currents ranges from those which are so mild as to be scarcely perceptible, to the most powerful that can be endured by a strong man. All of the metal parts are nickel-plated, with finely finished case, two conducting cords, two nickel-plated handle electrodes, one rosewood handle, one sponge holder and foot plate with each apparatus. We can recommend it to our readers, as it gives a steady, strong or mild current, will not get out of order easily, and is equal to the most expensive instruments in finish and efficiency. Price, complete, \$5.00. Extra dry plates will be furnished for 50 cents. This battery is sent securely boxed, all

complete for use by express. The receiver will pay transportation charges.

WADE AND BUTCHER RAZORS.

The Wade and Butcher razor is well-known as an article of standard quality. We will send this hollow-ground razor, with a handsome fancy etched blade, finely finished, and set ready for use, superior to all others, for only \$1.00, postpaid, delivery guaranteed.

We will send a "special" hollow-ground, Wade and Butcher razor, for only \$1.25, postpaid, delivery guaranteed.

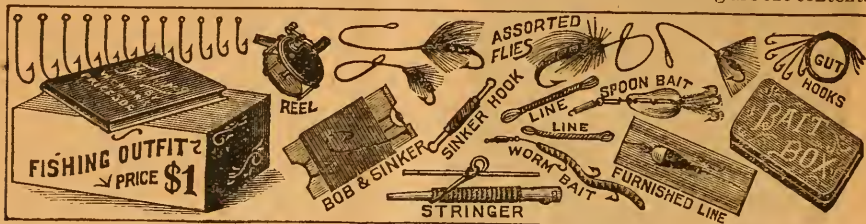

We will send the first of these razors with the paper for one year, postpaid, to any address, for only \$2.50, for both paper and razor; and we will send the second one with the paper for one year, postpaid, for \$2.75, for both.

RAZOR AND STROP COMBINATION.

This combination includes a Wade and Butcher razor, hollow-ground, with a handsome fancy etched blade, finely finished, and set ready for use; superior to all others. A belt strop made of solid leather on a steel frame, with a box of American strop paste neatly placed in one end, and a leather brush of very fine bristles, firmly wound with best twine. Price, delivery guaranteed, postpaid, for \$2.00.

THE WALTON OUTFIT.

The passion for fishing is almost universal. Nothing is more annoying than badly-fashioned and imperfect tackle at the critical moment. For the benefit of our readers who want a convenient, compact and inexpensive assortment of things necessary for an outing on lake or stream, we have had made up the outfit shown in illustration below. If one were to buy the articles separately, the cost would be fully double that we are able to offer the collection for. The following are the contents:

1. Artificial worm bait, something new and good when live worms fail. 2. Strong brass reel, perfectly made and finished. 3. Spoon bait, a perfect beauty, warranted to allure bass and other fish. 4. Patent hook and sinker attachment; it does away with tying knots in fish lines. 5. Bait box, strong and well made. 6. Heavy linen trout line, which will hold the heaviest trout. 7. Linen bass or salmon line. 8. Furnished line, complete with patent float, sinker and hook. 9. Long cotton line on block with hook and sinker, for rockbass, sunfish, catfish, etc. 10. Twelve ringed steel fish hooks, best standard make, sharp points and perfect barbs, assorted sizes, from minnows to weakfish. 11. Two improved trout flies; natural brilliant colors. 12. One improved bass fly, finest made. 13. Salmon fly, perfect in shape and color. 14. Two snell hooks and gut; hooks set on long guts, positive security against fish cutting lines. 15. Patent fish stringer; something useful to carry home your "catch" on. 16. Guide book, specially prepared by an experienced angler, who describes every fish and how to catch it. The whole packed in a strong, wooden box, sent postpaid, for \$1.00, or with the New York Ledger for one year, both paper and outfit postpaid, for only \$2.50.

A CAN OPENER.

Every housekeeper owes it to her own temper to have her kitchen supplied with a good can opener. We have one to meet this want. It cuts without slipping or tearing, and will open the can at the extreme edge, so that the contents may be removed without shredding, tearing or disfiguring the same.

It cuts close up to the edge of the can. The knife is made of finely tempered steel, and has a sharp cutting edge, which makes it cut easily and smoothly. (It does not tear the metal.) The end of the handle is enlarged and rounded, so as not to hurt the hand when forcing the knife to enter the can. The knife can be easily removed from the handle for sharpening. It is a high grade tool, well made, and of neat design. The knife is polished and nickel-plated, the handle heavily enameled, or polished and nickel-plated. The only can opener a lady can use with ease.

HOW TO USE IT.

Hold the tool with the left hand up close to the edge of the can, at the same time balance the can with the same hand. Then give a smart blow with the palm of the right, which will insert the knife into the can. Then with the right, cut with a downward motion against the side of the can; keep on cutting along the edge until the entire top is removed. Do not attempt to enter the can by twisting or using the knife as a drill, as that will break or wear off the point, but make the knife cut its way into the can by a light blow or pressure of the handle. Should a lump of solder retard the cutting, guide the knife slightly away from the edge until the obstruction is passed, then cut close up to the edge again. We will send this can opener to any reader of the *Ledger* for only 25 cents, postpaid, and delivery guaranteed.

A SET OF 6 KNIVES AND FORKS.

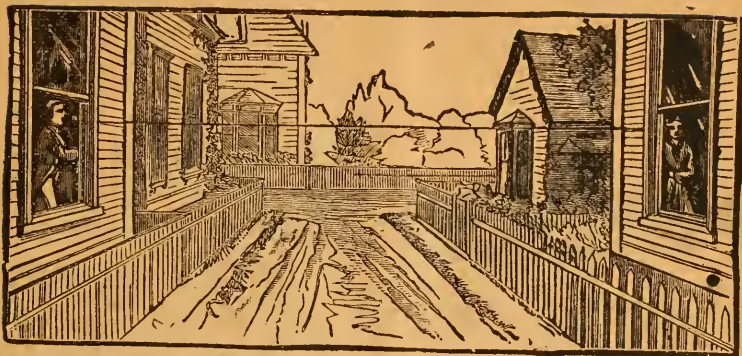

They are made with fancy bolster, with either ebony or cocoa handles, strongly made, with three rivets in handle. Price, delivered, \$1.25.

Should any reader of the *Ledger* order these knives and forks at the same time a subscription is sent for the paper, we will give the paper, postpaid, for one year, and the knives and forks, delivered to any one address, for only \$2.75, postpaid.

One of the most useful things in this catalogue is our set of 6 knives and 6 forks, which is offered at a great bargain.

NON-ELECTRIC TELEPHONE.

This telephone is a simple instrument, which is adapted to instantaneous and easy communication between persons not more than 1,000 feet apart and in nearly a straight line. For practical use it serves the purpose of a speaking-tube, but is much cheaper and can be used over a much longer distance, transmitting the voice in more natural tone and with clearer accent than by the tube.

The party at one end of the wire signals the person at the other end by simply tapping upon the instrument. It is the most economical form of communication between a house and barn, or between different shops, factories or other buildings where frequent messages are desirable. Complete directions for setting it up, with 100 feet of composition wire, are sent with each telephone, packed in a wooden box. The instrument is warranted to work for 1,000 feet, if put up in accordance with directions sent. It will be mailed, postpaid, to any address in this country for \$1.25. If additional wire is needed, it will be furnished at the rate of 35 cents per 100 feet, wound on a spool.

SYMPHONY HARMONICA.

This harmonica is an imported instrument of German manufacture. It is made of concert wood, extension ends, brass lined, forty reeds, twenty holes (each hole having two reeds), octave-tuned, nickel-plated sides with sound-holes. There is no question but that this instrument is the very

best of its class to be had for a nominal price. It will be sent, postpaid, to any reader of the New York Ledger for only 50 cents, or with the paper for one year, postpaid, for only \$2.25 for both paper and instrument.

FAMILY SOLDERING SET.

"A stitch in time saves nine" is an old adage which applies to nothing better than the repair of tinware at the first appearance of a hole. The damage to a pan or tin dish is repaired in two or

three minutes without the necessity or expense of taking it to a tinker, by using our family soldering outfit. In this way the thrifty housekeeper may save many a dollar every year. The outfit consists of a soldering iron with solid copper end, one bar of solder, one scraper and a box of powdered resin, and full directions for use packed in a strong box. This will be sent to any reader of the New York Ledger, postpaid, for only 50 cents.

FISHING RODS AT A BARGAIN.

Nothing is more absolutely necessary to success in a fishing excursion than a reliable rod. In order to meet this demand, we have arranged for an assortment of the best rods obtainable, at bargain prices, which we send, postpaid, to any of our readers upon the following terms:

Outfit No. 1.

One three-piece, light color, nickel-mounted rod, with solid metal reel seat, ash butt and

middle joint, lancewood tip, corrugated hand grasp and put up in muslin bag; one 35-yard nickel-plated reel, one 50-foot linen line, one float and one dozen hooks on gut snells. Price to subscribers, delivered free, \$2.50.

Outfit No. 2.

Three-piece lancewood rod in muslin bag, 40-rod multiplying reel, with drag, 50-foot linen line and float and one dozen hooks on gut snells. Price to subscribers, delivered free, \$3.00.

Outfit No. 3.

Lancewood, three-piece rod, with extra tip, put up in a groove form and bag, nickel plated multiplying reel, with balance handle and back-sliding click; 100 feet best quality linen line and two-inch cork float, one dozen hooks on gut snells and one box small sinkers. Delivered free, \$3.75.

Outfit No. 4.

This is the same as No. 3, except that the rod is a split bamboo, ten feet in length. It is sent to any address, delivery prepaid, for \$5.00.

Ice Cream Freezer.

We have spent a great deal of time in examining the various ice cream freezers on the market with a view to determining which make is the

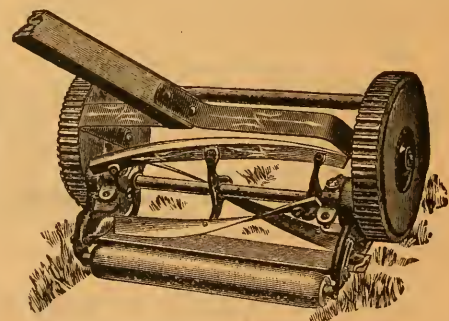

best and at the same time the cheapest. We have finally adopted the kind which we offer here as being the most economical and, at the same time, the most efficient. The pails are of the best Virginia white cedar, bound with electric-welded wire hoops, which are guaranteed not to fall off. The gearing is completely covered, double action, with self-adjusting scraper. The

cans are well made, of heavy tin plate; inside parts coated with pure black tin; outside iron work thickly and smoothly galvanized. It is economical in the quantity of ice required, and will be furnished in the following sizes: 1, 2, 3, 4, 6, 8, 10 and 14 quarts each, for \$1.50, \$1.70, \$2.00, \$2.40, \$3.00, \$3.80, \$5.25, and \$6.50, respectively. A book with full directions and recipes for making all kinds of ice cream, water ices, frozen fruits, etc., will be sent with each freezer; purchaser will pay express charges. If any reader of the *Ledger* would prefer to raise a club of only three yearly subscribers to the paper at \$2.00 each, to buying a freezer outright, we will send one of these one-quart freezers free to pay for the trouble, except that the receiver will pay the express charges. The freezer itself will cost nothing.

LAWN MOWERS.

A lawn cannot be kept with a presentable appearance without the frequent use of a mower throughout the grass-growing months. We have secured a machine which we are sure will suit our readers. This machine is the lightest running mower in the market. Only the best of materials have been used in its construction, and the simplicity of its combinations makes it superior to all others. The size of the traction wheels are eight and one-half inches. Phosphor bronze is used for the reel bearings, a great advantage.

Five and one-half inches is the diameter of the reel. The reel knives are of the first quality steel, hardened and tempered in oil and adjusted to cutter bar, insuring a smooth cut. Boxes are made straight and are universal working. The cutter is made of solid steel, and is rigid in its construction.

The ratchet is positive and noiseless, completely housed, so no dirt or grass can interfere. The shrubbery guard is a hollow wrought pipe with a steel rod through the center, and is placed in front of the reel. The roller is adjustable and can be set to cut the grass at any desired height. All parts are interchangeable. Should any piece become broken or worn, it can be duplicated. The power is applied at the center of motion—the axis of the traction wheels.

We will send this mower to any of our readers upon the following terms, viz.: 10-inch cut, \$2.70; 12-inch cut, \$2.85; 14-inch, \$3.00; 16-inch, \$3.30, and 18-inch cut, \$3.60.

These machines are sent either by freight or by express, the receiver paying the charges for transportation. In case it is sent by freight, 15 cents extra must be added to pay cartage. In case it is expressed, there are no charges except those made by the express company.

No. 1 "Eclipse" Photographing Outfit.

The growth in popularity of photography as a means of recreation has led to greatly improved photographic appliances. The camera and appurtenances offered under the above title comprise a practical equipment for any amateur who may desire to engage in this attractive out-

door amusement. It consists of camera, lens, plate holder and carrying case combined. It also includes 6 lightning dry plates, 2 japanned iron trays, 2 bottles developer, 1 package hyposulphite soda, 1 printing frame, 6 sheets, each, silvered, and blue print paper, 1 bottle of gold or toning solution, 12 card mounts, 1 plate lifter, 1 sheet ruby paper, and full directions for making ruby lamp. This camera and appliances are carefully packed in a strong wooden box and sent to any address in the United States by express for \$2.50, the receiver paying expressage.

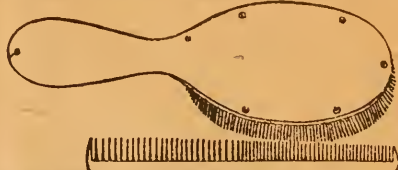

Reading Glass.

Many persons find it necessary to use a reading glass in addition to spectacles, while others who are more fortunate, and still have difficulty in seeing fine print, prefer a hand glass to any other. To meet this want we have procured a beautiful glass, with nickel-plated rim, which magnifies many times, and through which the finest print may be read. The cut simply shows the shape of the glass, but is much reduced in size to save space. The glass is two and one-quarter inches in diameter. Not only is it useful in reading, but the pleasure of examining photographs, pictures, and many small objects, is very much enhanced by its use. It will be sent, postpaid, to any of our readers upon receipt of 50 cents, or it will be sent with the *Ledger* for one year for only \$2.35, for both paper and glass.

Combs and Brushes.

We have two styles of combs and brushes. The first is specially designed for barbers' use.

The brush is imported, all bristles, with highly polished hard-wood back, well made, and will last for years.

The comb is of the finest quality of horn, very strong and durable. Price delivered, prepaid, to any address, only \$1.00.

We have also a ladies' brush and comb. The former is imported, all bristles, with highly polished rose-wood back. The dressing comb is of imported French clear horn. Frequent brushing is beneficial to the hair, and preserves the healthfulness of the scalp. A good brush, therefore, is very desirable. These articles will be found to fill every requirement. Price, delivered, only \$1.00, postpaid to any address in the United States. These articles, like all others in the catalogue, are offered only to our own readers.

An Outfit for the Kitchen.

The most important part of this outfit is a new style of roaster for cooking all kinds of meats in the oven. It is an ingenious contrivance, consisting of two pans with corrugated bottom and a row of small holes along the sides of the smaller of the two pans which sets inside of the larger one.

The fowl or meat to be baked is placed in the smaller pan and a little water is poured into the larger one. The heat of the oven causes the steam to rise from the water, which constantly moistens the meat, and with the help of its own juices, completes the self-basting process. There

THE ROASTER.

is no cover necessary over the meat. Roast beef or a turkey cooked in this way will leave the oven, done perfectly, and in a soft and juicy condition, without any burning or scorching on the upper surface. This dish is a valuable invention in cookery. We will send this self-basting pan, either 10x15 inches, or 11x17 inches, together with one 12-inch solid steel tin-plated meat fork; one 12-inch heavy steel tin-plated kitchen spoon; three table spoons, silver steel, tin-plated; one steel paring knife, finely tempered; one high-grade can opener; one butcher's knife, 6-inch blade, cocobolo handle, wide bolster, finely finished, and all done up neatly in one package. This collection is sent by express, the purchaser paying transportation charges—the entire outfit as described—upon receipt of only \$2.00.

THE UNSTEALABLE WHIP.

In every community whips are frequently lost out of vehicles where they are left. In other words, they are stolen. We have solved this problem for the protection of every one who drives. It is simply by a patented contrivance by means of which the whip can, in a moment, be changed into a cane of elegant appearance, so as to be carried in the hand, and thus not exposed to loss by being left in the vehicle at the hitching post.

THIS CANE WHIP

Is sent for **\$1.69**, Postpaid, by Mail.

Most Wonderful and Useful Invention of the Age. A Cane, a Buggy Whip and Riding Whip all in one.

FULL LENGTH 6 FEET.

CHEAPER THAN A WHALEBONE WHIP, TEN TIMES
AS DURABLE AND CONVENIENT.

The prime object of the cane whip is to provide a whip that may be adjusted and used as a cane, thereby enabling one to possess a *good whip without danger of its being stolen*. The desirability of such a provision is manifest to everybody using one.

Further, as is known, every whip will wear out at the tip first, while the remainder may be quite good. This failing is obviated in our cane whip from the fact that *all our tips are interchangeable*. *Tips may be bought at a small cost and used on the cane section of any whip*. *Extra tips furnished at 35 cents each*.

Every other whip will sag or warp in use, even the best full bone article.

The Patent Steel Cane Whip never sags nor warps. This is evident from its construction. The cane section is composed of a flexible steel tube, spiral in form. The edges of steel in spiral being far apart, and the thickness of the steel of which it is made, insure its perfect flexibility.

Price, \$1.69, Postpaid, to any P. O. in the U. S.

Or it will be sent with the *Ledger*, postpaid, for an entire year, for \$3.19, for both paper and whip.

- 
1. When used as a cane.
 2. As a riding whip.
 3. Cane, with cap off, ready for riding whip to be inclosed.
 4. Complete as a buggy whip, 6ft. long.

THE DIAMOND COLLECTION OF SONGS

Over 600 Songs, and Every One a Gem. Words and Music Complete.

This Book is a Veritable Treasury of the World's Popular Songs.

"The Finest Collection of Songs, both new and old, ever bound between the covers of one book."—N. Y. World.

CONTENTS:

THIS COMPLETE COLLECTION OF SONGS---WORDS AND MUSIC

Sent to any address, postpaid, for only 30 cents, or
with the New York Ledger for one year,
postpaid, for only \$2.15.

Musical Instruments.

Xylophone.

Ash. Fifteen bars on heavy red cord. \$1.75.

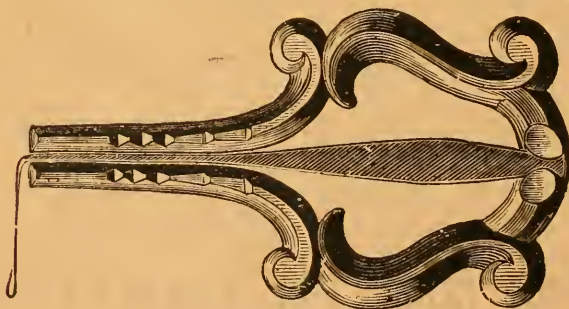

Violin.

Red shaded, good shape. Bow included. \$3.00.

Fife.

Key of B. Nickel-plated. American make. With Instructor. Mailed, 50 cents.

Fancy Jew's-Harps.

Three-inch fancy bronzed brass tips. Mailed, 90 cents.

We have only room in this small catalogue for a very few musical instruments out of a large assortment of all kinds of the best grades, for which we have arranged with an importer at the lowest wholesale cash prices. By this arrangement our readers get the advantage of buying articles of this description at a price lower even than they would cost an ordinary retail dealer, not to mention the profit which he must put upon everything. These instruments are guaranteed to be well made on scientific principles, and will give satisfaction. A good bow comes with each violin. The violin and xylophone are sent by express at the above prices, the receiver paying express charges. The fife and jew's-harp are sent by mail and delivery guaranteed at the prices named above.

No. 38 A.

Sterling Silver, Imitation
Tortoise Shell.
Mailed for 75 cents.

No. 234 A.

Sterling Trimmed.
Price, mailed, \$1.50.

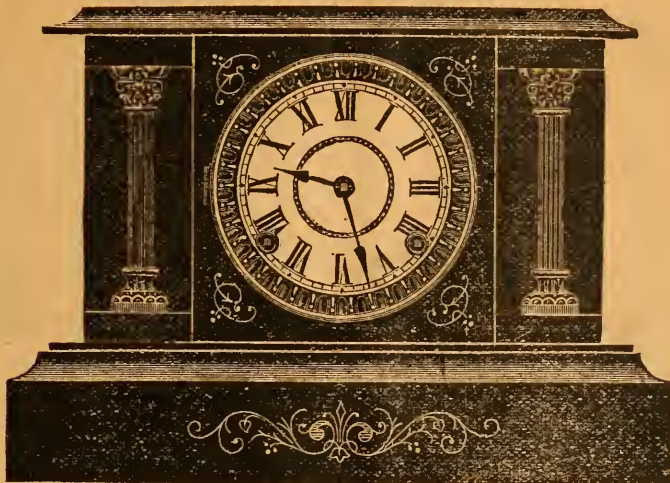

No. 265 A.

2½-inch Side Combs, Sterling Trimmings,
\$1.00 per pair, mailed.

We have selected a few of the very latest designs in ladies' hair combs for our catalogue. They are all either sterling silver tops or trimmed with sterling silver. The comb part is of imitation tortoise shell, making it far more durable, as tortoise shell is noted for being very brittle. The prices above include delivery.

SETH THOMAS CLOCKS.

Nothing need be said about the quality of the Seth Thomas Clock. It has been the standard American clock for several generations and enjoys a well-earned fame. All the clocks are sent by express, the receiver paying charges at the prices named below, except the "Pony," which is sent postpaid at the price named.

No. 783 A.

Wood case. Adamantine finish. Bronze metal columns and feet. Eight-day half-hour strike. Cathedral bell. Five-inch dial. Height, 10 $\frac{3}{4}$ inches. Base, 14 inches. Price, \$7.90.

Pearls. Price,
Mailed, \$2.80.

No. 1134 A.

Solid Gold Ring.
1 Garnet, 8 Moon-
stones. Price,
Mailed, \$3.60.

No. 101 A.

Solid Gold
Garnet Ring.
Mailed, \$1.50.

The rings we offer are all guaranteed to be solid gold. The different designs are all shown in the cuts. They are all sent by mail, postage prepaid, and delivery guaranteed, at the above prices, respectively.

HOW TO ORDER A RING.

Take an ordinary wooden match and cut off a piece just right length to pass crosswise through a ring of the size wanted. This will give the inside diameter. Inclose the piece of match in your letter, and from this measure we can fit your finger as well as though you had tried the ring on.

LOUVRE.

Price, \$17.50.

Marqueterie panel. Mahogany front. Polished brass inlay. Gilt metal trimmings. Height, 16 inches. Eight-day spring. Strike cathedral bell. Four-inch porcelain dial.

The Amateur Mask.

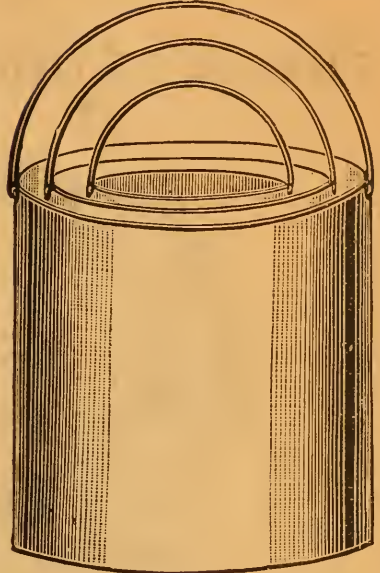

No B

This mask, which is the favorite with amateur ball players, is made in the same style as the League mask, but of lighter wire, made specially for boys. It is well padded, strongly constructed, and warranted perfectly safe. It is superior to many so-called professional or League masks frequently sold by country dealers. We will send this mask by express to any address, the receiver paying express charges, for only \$1.00. If any of our friends desire us to present them with this mask, free, we will do so in return for a club of only two yearly subscribers to the New York Ledger, at \$2.00 each.

If sent as a premium, the only charge will be the expressage, as the mask itself will cost nothing.

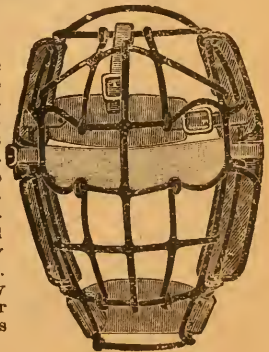

A Nest of Iron Buckets.

The above cut represents a nest of three Russia iron buckets. They are 11½ inches high, and 9½, 10½ and 12 inches in diameter, and hold 3, 4 and 5 gallons, respectively. They are made to pack inside of each other, with a special view to convenience of transportation. These buckets are made of the best material, with a strong iron bail and a heavy rim. They are superior to a wooden bucket, and yet we are able to offer them as cheap. This arises from the fact that these buckets, for which we have made special arrangements, are the residue from a government contract made for the quartermaster's department of the United States army. When these are gone there will be no more obtainable. They are sent by express upon receipt of only \$1.00 for the three-buckets. They are not sent separately. They weigh together about 17 pounds. The receiver will pay the express charges. These buckets will be found especially useful as part of a camping outfit, although they may be adapted to any purpose for which buckets are used.

Regulation Mask.

This mask is the one used by League players in the professional games, and is warranted first-class in material and workmanship. It is made of heavy black enameled wire, the padding well stuffed and faced with specially tanned horse hide. This mask is sent by express, the receiver paying express charges, for \$2.50.

No. 1.

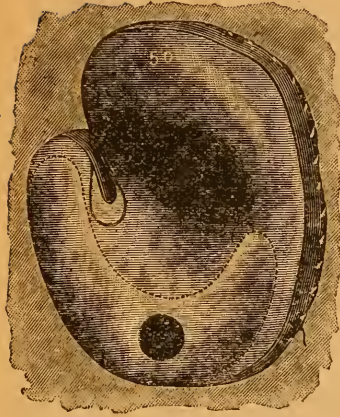

THE SPALDING LEAGUE BALL.

The Spalding League ball is the admiration of every player of the national game. It has been adopted by the National League and American Association, and used by the National League for the past 18 years in every professional game. Each ball is wrapped in tinfoil and put in a separate box, as represented in the illustration, and sealed in accordance with the regulations of the National League and American Association. It is warranted to last a full game without ripping or losing its elasticity or shape. It is sent, postpaid, for \$1.50. If any of our young readers who are devoted to the national sport, should want one of these balls free of expense, we will make them a present of it if they will send us a club of only three subscribers to the *New York Ledger* for one year, at \$2.00 each. Here is a chance for all of our bright and active young friends to secure the finest baseball ever made, without the outlay of a cent. Remember that the *New York Ledger* is an illustrated weekly paper of sixteen pages with gorgeous holiday numbers, coming 52 times a year, and it is no trouble to get up this small club,

SPALDING'S LEAGUE MITT.

Under the modern pitching rules it is necessary for the man behind the bat to wear mitts for the protection of the hands. Our mitt No. 1 is made throughout of a specially tanned and selected hog-skin, making a strong and durable mitt, at the same time being very soft and pliable. It has a patent lace back and is heavily padded. Made in rights or lefts. This will be sent by express, to any address, upon receipt of \$5.00. The purchaser will pay express charges, since this mitt is rather too heavy to send by mail. It may be mentioned that this is the mitt used by the League players. The left-hand mitt is always sent unless otherwise ordered.

No. 1.

An All-Round Mitt.

This mitt is constructed of velvet tanned deer-skin, and edges morocco bound. It is well padded with fine felt, and carefully sewed and finished. Made in rights or lefts. The left-hand mitt is always sent unless otherwise ordered. We will send this mitt, postpaid, delivery guaranteed, to any address, for \$2.00.

No. 2.

SPALDING'S FOOTBALLS.

These balls are made of a special grain leather, which for lightness and strength excels any leather ever used for that purpose. As the bladder is of special importance to the life of a football, there has been made for these balls a red Para rubber bladder of finest quality, which will outlast two or more of the ordinary

black rubber bladders. We send each ball in a sealed box, as put up by the manufacturer, as a guarantee of genuineness. We send either of these balls to any address for \$4.00. They go by express, the receiver paying the expressage.

BOXING GLOVES.

No. 1.

No. 1 is men's size, practice set, with chamois back and tan palm, nicely padded and very durable. This set of four gloves will be sent for \$2.00.

No. 3.

No. 3 is a boy's set of gloves, with chamois back and tan palm. They are sent to any address for \$1.50.

No. 2.

No. 2 is a set of men's size also. The back and palm are of selected kid of claret-colored tan, and the palm is ventilated. This set will be sent for \$4.00.

No. 4.

No. 4 is a boy's size also. The gloves are of white kid, well made and padded, and have ventilated palms. These will be sent for \$2.50.

All these boxing gloves are sent by express, the receiver paying express charges.

AMERICAN RUBBER FOOTBALL.

This is the old-fashioned football of the style in vogue when our fathers were boys. It is made

of rubber, heavy, strong and elastic. We send this ball, 24 inches in circumference, by mail, delivery guaranteed, for 90 cents. Or we will send this ball, 28 inches in circumference, by mail, delivery guaranteed, for only \$1.25.

TENNIS BALLS.

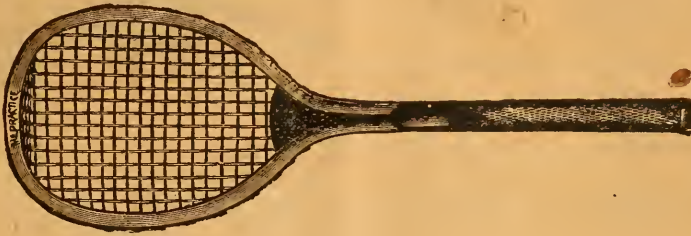

We offer in tennis balls only Spalding's "Highest Quality." Cheaper balls never give satisfaction, and the price of this one per dozen brings it within the reach of all lovers of this delightful game. These balls are made of the best and most carefully selected material, and are put together in the most skillful

manner. Each ball is thoroughly inspected to insure the greatest uniformity in quality, and is warranted by the manufacturer. A full dozen of these balls, carefully packed, will be sent by express to any of the *Ledger* readers for \$5.00. The receiver will pay expressage.

PRACTICAL TENNIS RACKET.

This is an excellent racket for children. It has a frame of white ash, walnut throat piece, red and white gut, checkered cedar handle and leather cap. This racket is sent by express, the receiver paying expressage, for only \$1.00.

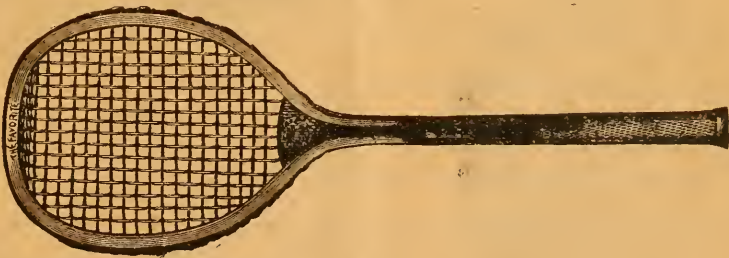

No. 1.

It will be sent free, as a premium, without any charge, except the expressage, for a club of only two yearly subscribers to the New York *Ledger* at \$2.00 each. Remember that when this racket is sent as a premium, it costs nothing to the club raiser except the express charges, which will be but a trifle, as the racket is light.

THE FAVORITE RACKET.

This tennis racket is made with a frame of white ash, polished throat piece, red and white gut,

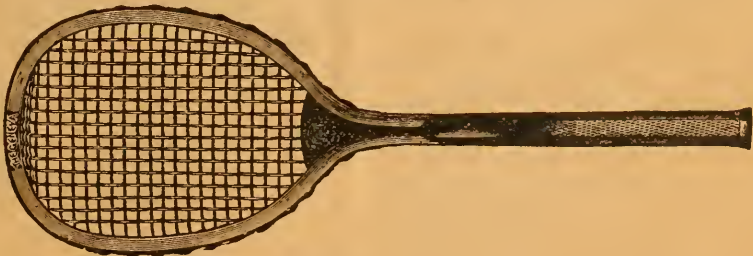

No. 2.

checkered cedar handle and leather cap. This racket is a little heavier than No. 1. It will be sent by express to any address for \$1.50. The purchaser will pay the express charges.

THE GENEVA TENNIS RACKET.

This racket is the Slocum shape, so called for the famous champion tennis player. It has a frame of white ash, polished walnut throat piece and checkered cedar handle. It is strung with red

No. 3.

and white gut, and is leather capped. This racket will be sent by express to any of our readers for \$2.00, receiver paying charges. Or it will be sent to any address, with the paper, postpaid, for one year for \$3.50, for both paper and racket.

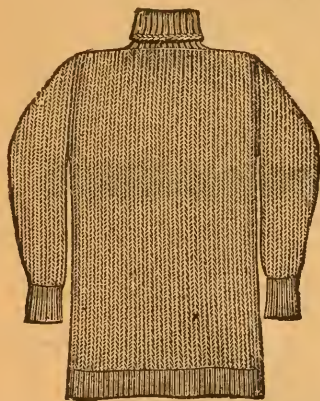

Infielder's Glove.

This is a finely made glove, the material being a golden tanned leather. It is padded with felt and carefully seamed. This splendid glove is sent, postpaid, delivery guaranteed, to any address for only \$1.50.

Athletic Sweaters.

We offer two grades of athletic sweaters. They are made of Australian wool, heavy ribbed and handsomely woven. They are full shaped to body and arms, and are guaranteed the finest

and best line of ribbed sweaters ever offered at the price. The colors come in white, navy blue, black and maroon. We will send No. 1, heavy weight, for \$3.50, or No. 2, lighter weight, for \$2.50. These goods are all sent by express, receiver paying charges.

Sheepskin Polishing Mitten.

Housekeepers are probably unanimous in the opinion that one of the most disagreeable tasks for either themselves or a servant is involved in the use of stove blacking. With the old-fashioned brush it was almost impossible to keep the ends of the fingers from being soiled, the finger nails from being stained, and the hands from being bruised. At the same time nothing more clearly indicates the neat housekeeper than brightly polished stoves and ranges. A modern invention, which does away with all the disagreeable features of polishing stoves and accomplishes the work in half the time, is the polishing mitten shown in the cut above. This mitten is made with a waterproof back and sheepskin front, dressed with the wool on. The wool is on

the outside, so that when the blacking has been put on the stove with a dauber, which comes with the mitten, the polishing is done by simply rubbing the stove with the hand encased in this

THE HANDY

mitten. The dauber is an important part of the outfit, being so made that the hand does not come in contact with the blacking, and shaped to reach all the nooks and crannies about the stove. This mitten will also be found very useful for polishing windows, dusting furniture and cleaning shoes. The dauber and the mitten will be sent postpaid to any reader of the New York Ledger for only 30 cents.

THE AMERICAN FLAG.

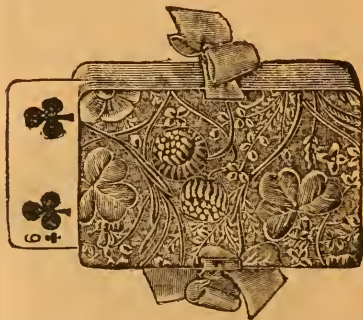

Every patriotic American citizen would like to own a flag. By special arrangement we have obtained manufacturers' prices on a line of American flags. They are all sewed bunting flags. The stars are stitched on both sides by machine; no zigzag stitch; no raw edges. Strong canvas heading, with nickel-plated grommets. Full number of stars on all, except the smallest two sizes. We will send these flags at the following prices, viz.: 4 by 7 ft., \$3.25; 4 by 8 ft., \$3.50; 5 by 8 ft., \$4.00; 6 by 9 ft., \$5.00; 6 by 10 ft., \$5.35; 6 by 12 ft., \$6.25; 8 by 12 ft., \$7.75; 8 by 15 ft., \$9.75; 9 by 14 ft., \$10.25; 9 by 18 ft., \$12.00; 10 by 15 ft., \$11.35; 10 by 16 ft., \$12.00; 10 by 18 ft., \$13.50; 10 by 20 ft., \$14.70; 12 by 18 ft., \$15.40.

These goods are sent by express, the receiver paying the express charges.

SILVER CARD-HOLDER AND CARDS.

This card-holder is made of metal, silver-plated. It is stamped in beautiful assorted designs, and will be found specially useful, not only to preserve cards fresh and clean, but it makes a

very appropriate prize for progressive euchre or drive whist, or for a present to a friend. A pack of gilt-edge cards is sent in the box. The holder and cards are sent, postpaid, to any address in this country for only 50 cents.

PNEUMATIC BOAT.

This is something new for sportsmen. It is absolutely safe, and can neither be capsized nor sunk. It is impervious to air and water, and is not liable to puncture, but is made in four compartments, any one of which would sustain you. It is light, convenient and durable; is quickly and easily inflated, as it only takes from two to five minutes to inflate it, either by the use of the pump or the lungs. The boat is propelled with the legs as in walking, by means of folding paddles or fins on the

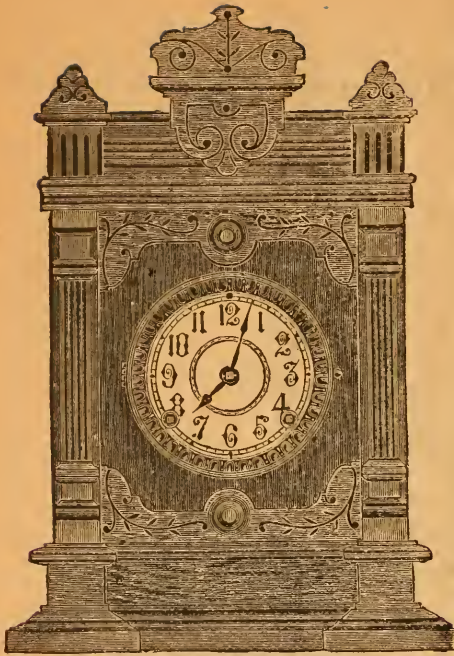

boot leg, which close with the forward motion of the leg and open with the backward stroke. Any one can operate the boat and become skilled in handling it in a few hours' use. The position is that of sitting, the legs going into boots from the knee down. It is more comfortable to sit in than any small boat in use, and is noiseless, as there is no splash of the water or oars to contend with. The arms and body are entirely free to use gun or rod, and you may shield yourself from the game by means of a brush or grass blind, which is provided for on each boat. It has loops, straps and rings for all conveniences, is provided with a storm cape, which fits snugly around the breakwater to shield you from the rain or rough waters. It has been thoroughly tested, and has been found safe in all waters. The boat is made in one size, with a floating capacity of over 350 pounds. The boots are large enough to go over the average shoe.

Extreme length of Boat.....	45 inches.
Extreme width of Boat.....	32 inches.

When deflated, boat will pack in bag 16x20 inches, and weighs only about fifteen pounds. It will be sent by express to any address for \$35.00, the receiver paying express charges.

WOODEN MANTEL CLOCK.

PORTLAND. PRICE, \$8.75.

The illustration adjoining shows the
PORTLAND.

It is made of walnut or old oak, eight-day, half-hour strike, cathedral bell, five-inch dial. Height, 17 inches. We send this clock by express to any address, receiver paying express charges, for only \$8.75.

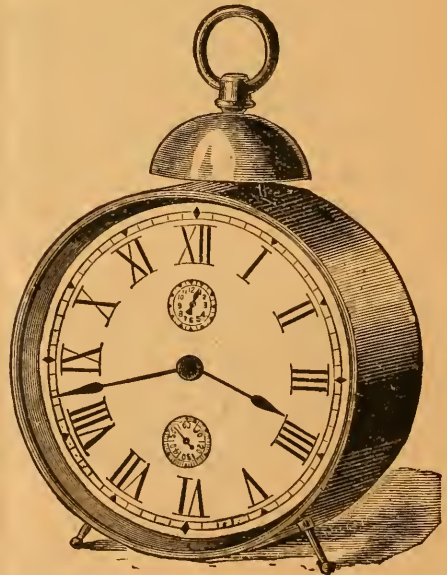

This clock is made by the famous Seth Thomas Clock Co., which is a sufficient guarantee of its quality and durability. We will send this clock with the *New York Ledger*, for one year, postpaid, for only \$10.25, for both clock and paper.

The Nickel Alarm Clock

shown in the adjoining cut is a standard article which formerly cost \$2.00. Competition, however, has so reduced the price that we are able to sell it to any of our readers for only

\$1.46.

Eight cents extra should be sent if you desire to have it sent by registered mail. This clock will be sent as a present, free of all cost, to any of our friends who will raise a club of only three yearly subscribers to the *New York Ledger*, at \$2.00 each.

NICKEL ALARM CLOCK.

How to Get A Beautiful Haines Piano Free

HAINES BROS.

Founded by

N. J. Haines in 1851

**Piano Forte
Makers**

New York

*The Haines Piano is
Used and Endorsed
by Adelina Patti.*

This cut represents the New York Ledger Prize Piano Manufactured by Haines Bros. Price, \$600.

The above cut gives but an imperfect idea of the beauty of the Haines Bros. Cabinet Grand Piano, price \$600, which will be sent free of all cost to the party who sends us the greatest number of yearly subscribers, mailed to us before the first day of June, 1895. This prize is offered to our subscribers, postmasters and local subscription agents, but large agencies cannot compete for it; hence, the prize will be awarded to the party who earns it by his or her own individual efforts, and not to an agency with a large force of assistants. A subscriber will stand a good chance of winning, for he or she will know the merits of the *Ledger*, and hence will know how to interest other people in it. We would suggest that the best method by which a competitor could work, would be to select a good list of people in the immediate neighborhood who would be likely to want a good family paper such as the *New York Ledger*, and send this list of names to us with the post-office address plainly written out, and we will send a sample copy of the *Ledger* to each name, and notify you by mail that we have done so. You can then call in a few days and say that the sample copy of the *New York Ledger* which they have received was sent at your request; also that you yourself are a subscriber to the paper, that you know its merits, and that you would strongly advise them to subscribe and allow you to send their subscriptions for them, in order that you may get credit for the names in the competition for our Haines Prize Piano, price \$600. Do not be discouraged because you feel that as an individual you can only send a few subscriptions. We have limited this competition to individuals, and we do not expect that it will take a very large number of subscriptions to win the piano, but we expect to have many competitors, and as each will send in a few names, we will be compensated by the total number of subscribers received in the competition. We feel sure in predicting that the piano will be awarded to the party who works hardest according to the method which we have suggested.

LATEST AND CHOICEST PATTERNS.

The publishers of the New York *Ledger* have made arrangements to supply the *Ledger* readers with the finest and latest patterns for 10 cents each. See Woman's World page of the New York *Ledger* for additional illustrations of patterns, which may be ordered at the small price of ten cents each. Full and explicit directions for putting together the garment accompany each pattern.

6341.—LADIES' PLAITED WAIST.

HOW TO GET THEM.

To obtain any of these patterns, write your name, address and bust measure, and send it with ten (10) cents cash—a dime or two (2) nickels—wrapped in a small piece of paper.

The pattern will be mailed to the proper address promptly. Address all orders

Spruce Streets, New
York City.

Sample copies of the New York *Ledger* sent free on application.

BRONZE TOP PIECES.

These top pieces are used as mantel ornaments, or to stand on the top of clocks. They are made of *American Bronze, Pompeian Finish.*

No. 523 A.

The Gunmaker of Moscow.

PRICE, \$3.50.

No. 523 A—called “The Gunmaker of Moscow”—is an artistic figure, showing in bold lines and easy grace the sturdy form of the gunmaker to perfection. He holds in his hands a piece of his own fabrication, and he is equipped with hat and boots for a day’s recreation in the forest.

The group is $9\frac{3}{4}$ inches high and measures 9 inches at the base. It will be sent by express—the receiver paying the express charges—to any address for only \$3.50, or it will be sent with the *Ledger*, postpaid, for one year, for only \$5.00 for both the bronze figure and the paper.

The Indian Hunter.

PRICE, \$6.50.

No. 581 A is a splendid figure of American bronze, showing an Indian hunter, bow in hand, on the trail, with his hound by his side. It is 9 inches high, $8\frac{1}{4}$ inches at the base. This elegant ornament will be sent by express to any address—the receiver paying express charges—for only \$6.50, or with the *Ledger*, postpaid, for an entire year, for only \$8.00, for both the paper and the bronze group.

No. 581 A.

Ladies' Guard Watch Chain.

No. 5514 A.

We show in cut 5514 A a splendid ladies' guard chain, which is three feet in length, passing clear around the neck, and holding the watch secure from loss either by accident or pick-pockets. It comes in sterling silver. We will send this to any address, postpaid, for only \$2.50.

We have another chain of this length, used for the same purpose, which is a rope pattern and is gold-filled, wearing many years like solid gold. We send this one—which we number 5515 A for convenience in ordering—to any address, postpaid, delivery guaranteed, for only \$4.25.

HAIR COMB.

No. 232 A.

PRICE, \$1.25.

We have a beautiful hair comb—No. 232 A. It is imitation tortoise shell; with sterling silver trimmings. The cut only shows the top of this beautiful and fashionable article. It is sent postpaid, delivery guaranteed, to any of our lady readers for only \$1.25, or it will be sent as a gift, without expense, to any of our friends who will send a club of only three yearly subscribers to the *Ledger* at \$2.00 each.

Sterling Silver Belt.

No. 5 A.

SILVER-PLATED FRUIT KNIVES.

We have a set of six silver-plated fruit knives, a very useful article in every household, and we offer it very cheap. These knives are heavily plated with silver on solid steel. We send them by mail to any address, postpaid, for only \$1.00. Or we will make a present of them to any lady who will send us a club of only two subscribers to the *New York Ledger* for one year, at \$2.00 each.

No. 5 A shows a sterling silver belt-buckle and belt full width. "They are going to wear belts with silver buckles this summer," was the information given by the head salesman at a fashionable dry goods emporium in New York recently. What "they wear" settles the question for the season. Therefore the *Ledger* has selected the choicest style for the benefit of its lady readers. It is imperative for every lady who expects and desires to dress in good taste to know what is fashionable and to conform to the prevailing modes.

The belt shown in the cut gives some idea of the beauty of the design, but it cannot be expected that any picture can show the luster and elegant finish of the article itself. The buckle and clasp are solid sterling silver, 925-1,000ths fine. Nothing plated, and no oxidized base metal buckles are used in these belts. The ribbon is a little less than two inches wide, either black or blue in color, according to taste. The material is a heavy-corded silk. This beautiful belt will be sent, postpaid, to any *Ledger* reader, delivery guaranteed, for \$2.15.

Ladies' Link Cuff Button.

Cut No. 206 A shows a gold-link cuff button adapted to cuffs or shirt waists. It is made of 14-kt. rolled gold fronts of the grade known as gold-filled. They will wear for 10 or 15 years like solid gold, and they have the advantage of cheapness, so that if lost or broken it is

No. 206 A.

a small matter. We will send these elegant link cuff buttons, postpaid, to any lady reader of the *Ledger*, delivery guaranteed, for only \$1.00, or, if any one prefers to earn them by raising a club of only two yearly subscribers to the *Ledger* at \$2.00 each, we will send the cuff buttons as a present, free of all cost.

Handsome Sterling Silver Belt.

No. 624 A.

SILVER HAT PIN.

No. 2200 A shows the head and upper portion of a hat-pin made of sterling silver, about six inches in length. Every lady will appreciate it as a necessity, especially at the seashore. It is sent, postpaid, to any address, delivery guaranteed, for only 90 cents.

No. 2200 A.

No. 624 A. is a handsomer belt than No. 5 A. The ribbon is just the same, being of corded silk, either black or blue, according to taste. The difference is in the buckle, which is larger and more ornamental than in the other case. All the metal parts are engraved sterling silver. We will send this beautiful belt to any lady reader of the *Ledger*, postpaid, delivery guaranteed, for only \$2.60, or with the *Ledger*, postpaid, for one year, 52 numbers, to any address, for only \$4.10, for both paper and belt.

Ladies' Shirt Buttons.

No. 205 A shows a set of 3 studs which ladies wear in shirt waists. The illustration shows the studs without connecting chains, but we have them all three connected with a chain made of the same material as the studs, the chain to be worn either inside or outside the shirt front, as the wearer may desire. The main object of the chain is to hold the studs together, to prevent their being lost in case one or two of them should escape from the buttonhole. These studs

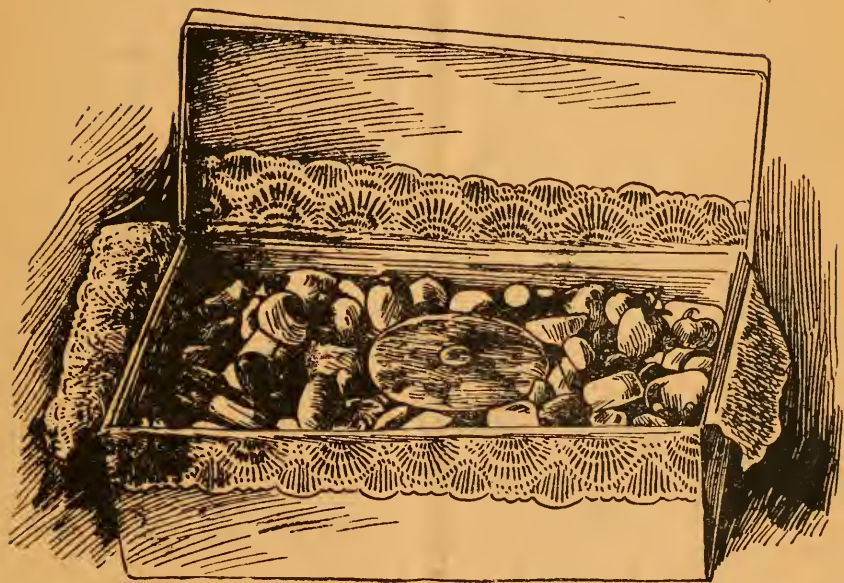

No. 205 A.

are also worn by small children to fasten the dress in the back. We will send a set of these studs in solid sterling silver, postpaid, without chain, for \$1.55, or with the chain, postpaid, for \$1.75. We will send the same style of studs, gold filled, which will wear for many years like solid gold, without the chain, for \$1.30, or with the chain, postpaid, for \$1.50.

CHOCOLATES AND BON BONS

At One-Half Retail Prices.

Nothing is more wholesome than absolutely pure confectionery. The *Ledger* has arranged with a leading manufacturer in New York City for a choice selection of Bon-Bons and Chocolates, made from the purest materials, with harmless vegetable colors and the most delicate flavors.

We will have these goods specially packed and put up in three-pound and five-pound boxes.

These chocolates and cream bon-bons are sold throughout the country for from 60 cents, which is the very lowest retail price, to \$1.00 a pound.

Among the varieties contained in the assortment of which each box is composed may be mentioned: chocolate jellies, pecans, grenobles, nûgatines, filberts, marshmallows, almond nougats. Of the cream bon-bons there is an infinite variety, such as pistachio, orange, jelly rolls, jelly squares, strawberry, etc.

This assortment of sweets is neatly packed in a tastefully made box and shipped to any address in the United States by express, the receiver paying the express charges, which are but a trifle.

The three-pound box will be sent upon receipt of only one dollar, and the five-pound box will be sent upon receipt of one dollar and a half.

The *Ledger* guarantees these goods to be absolutely as represented, and they will be found to give perfect satisfaction either for domestic use or for church festivals, children's parties, weddings or other social events.

**The World-Renowned "Lalla Rookh" Measuring,
Drafting and Dress Cutting System.**

ENDORSED BY THOUSANDS OF EXPERIENCED DRESSMAKERS AND LADIES' TAILORS.
THE ONLY PRACTICAL "UP TO DATE" DRESS CUTTING CHART EVER INVENTED.
ABSOLUTELY PERFECT, SIMPLE IN OPERATION, SATISFACTORY IN RESULTS.

SALVATION ARMY CLOTH.

One of the problems that engaged the attention of the Salvation Army generals for many years was to find or make a cloth that would be light, durable and at the same time waterproof. This has been done, and the members of the Army march through the rain with perfect indifference, a gentle shake of their cloak and skirt leaving them perfectly dry. The cloth is a very fine blue serge, woven of pure wool, absolutely free from shoddy, mungo or flock, and probably the only woolen cloth now made that is. The purity of material makes it exceedingly durable—in fact, the cheapest, while at the same time the best in quality. It had to be cheap, or the Army could not afford it; and this cheapness was found in increasing the original cost of the cloth, making it last longer in proportion and serve more purposes. All the cloth of this kind made is taken by the Salvation Army, and used to clothe its members throughout the world. It controls the production, needing all it can get, and only a few hundred women outside of its ranks have in England succeeded, by favor, in getting the material for light "shower cloaks," for which they gladly paid from \$20 to \$25.

It can be made up in any way, of course, but that usually followed is to make the skirt separate, and face it for six inches with the same material. The waist is made in any shape desired. If a small cape of 24 to 26 inches is added, with a hood to cover the bonnet, the wearer is absolutely protected. The skirt and the umbrella is all that is usually required to make a woman absolutely independent of the rain. No moisture will penetrate the cloth, and the few drops on it can be shaken off at the house door.

This cloth is not to be found in any store, being imported by the management of the Salvation Army for the exclusive use of its members. We have, however, made a special arrangement to secure this material for the benefit of the readers of the *Ledger*, and it will be sold by the yard. It is 60 inches wide.

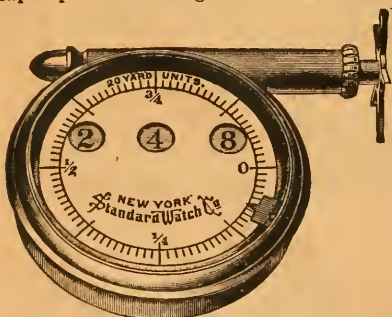

The color is uniform, a dark navy-blue. This cloth will stand a test that no other serge will. If a piece be gathered up to make a bag, it will hold water for hours without dripping. This is just the material to make a garment for an outing either in the mountains or at the seashore.

We will send any number of yards needed for a single garment for the personal use of any purchaser for \$1.45 per yard. The package will be sent by express, the receiver paying the slight charge for carriage.

INFALLIBLE CYCLOMETER

For Bicycles.

Prior to this season, a cyclometer has been so expensive that only wealthy bicycle riders have been able to afford this attachment to their wheel. At the same time, one of the chief elements of satisfaction in wheeling has always been an accurate knowledge of the distance covered. The New York *Ledger* has made arrangements direct with the manufacturer of a simple, novel device, so cheap in price as to bring it within the reach of

all. This contrivance is a small affair, weighing but a few ounces, of an elegant design, nickel-plated throughout, attachable without the necessity of any mechanical skill.

It registers 999 miles and fractions of a mile, after which it sets itself.

This cyclometer will be mailed to any address, delivery guaranteed, for \$2.00.

The only information which the person ordering need send is the diameter of his wheel. This cyclometer is only attachable to the safety wheel.

If the rider should meet with an accident and the cyclometer is broken, we will repair free of charge if stamps are enclosed for return postage.

THE ZITHER.

Zither, with instructor. Hard wood, 16 steel strings and tuning key, \$2.00.

The zither is the national instrument of the Black Forest in Germany. This instrument has 16 steel strings and a hard-wood frame, and an instructor and tuning key comes with it. This instrument is sent by express, receiver paying express charges, for only \$2.00.

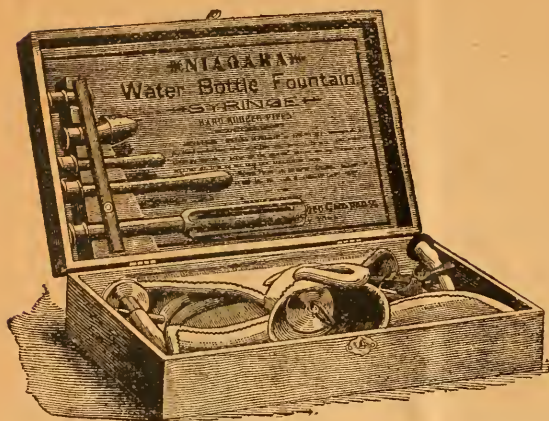

Bread Knife.

This knife has an eight-inch rolling blade, reduced in cut, cocoa handle, wide bolster. It is an excellent knife and will give perfect satisfaction to our housekeeper readers. We send this knife, postpaid, for only 50 cents, or with the paper for one year for only \$2.10,

The Good Luck Silver Spoon.

This spoon is triple-plated on hard, white metal base. Each spoon is packed in a separate souvenir box. The design of the spoon combines all the lucky emblems, viz., the four-leaf clover, forget-me-not, good luck, horseshoe and wish-bone. The cut is full size. This beautiful spoon will be sent to any address, postpaid, for only 25 cents. This is a bargain to oblige our readers.

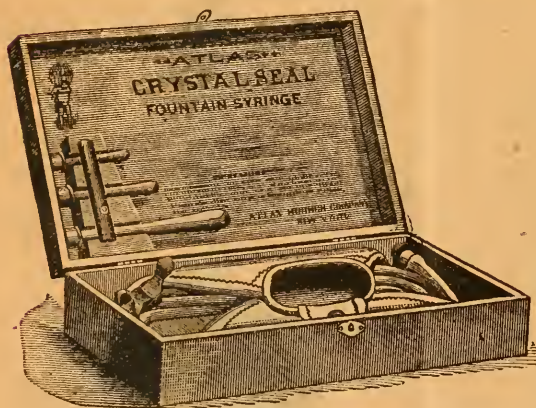

SANITARY RUBBER GOODS.

No. 1 A.

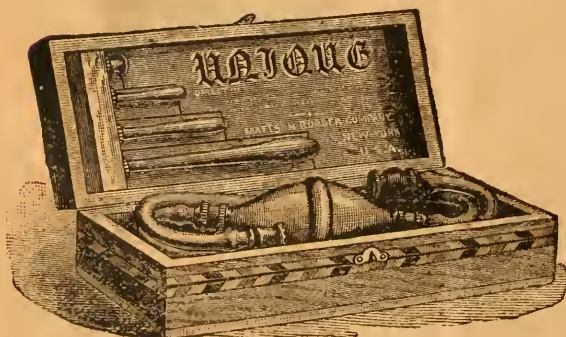

We have a good assortment of sanitary rubber goods. There has been such an improvement in efficiency in this class of appliances and such a reduction in price as to cause their universal use. They are now to be found in every family just as a sponge or other toilet article finds a place. All are made in the best style, guaranteed not to leak.

No. 1 A. The bag in this syringe can be detached from the tube and used as a hot-water bottle. It is sent, post-paid, delivery guaranteed, for \$2.00.

No. 2 A.

No. 2 A. New style bag with eyelet. Pipes are of hard rubber, either two or three-quart capacity. Sent, post-paid, delivery guaranteed, for only \$1.25.

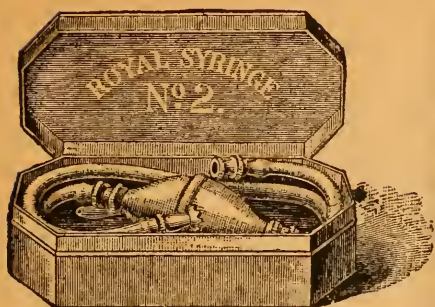

No. 3 A.

No. 3 A. This is a new style syringe, packed in a handsome inlaid box. Mountings and pipes are hard rubber. Sent to any address, postpaid, delivery guaranteed, for only \$1.00.

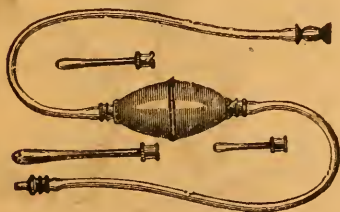

If any one does not appreciate these bargains, let him or her price these goods at a local drugstore.

MEDICAL RUBBER GOODS.

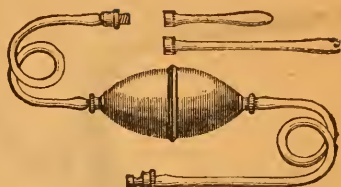

No. 4 A.

No. 4 A is called the Royal Family Syringe. It is made of the very best stock, with hard-rubber fittings, and three rubber pipes. It will be sent to any address, postpaid, delivery guaranteed, for only 65 cents.

No. 5 A.

No. 5 A.—This is believed by many to be the best kind of syringe ever manufactured. It has three rubber pipes. It will be sent to any address, postpaid, delivery guaranteed, for only 60 cents.

No. 6 A.

No. 6 A is the same as No. 5 A, except that it has two metal pipes instead of three rubber ones. These goods are offered very low. No 6 A will be sent to any address, postpaid, delivery guaranteed, for only 50 cents.

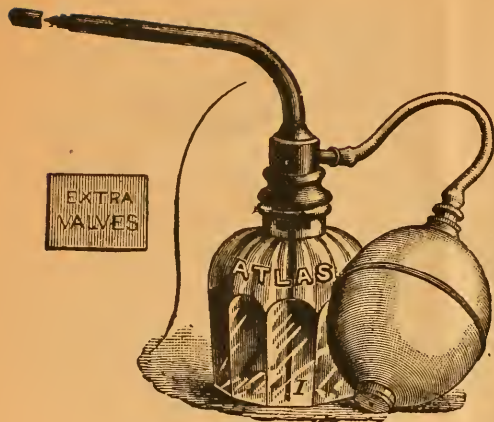

No. 7 A.

No. 7 A is the well-known ladies' Atlas syringe. It is made entirely of hard and soft rubber. It is sent postpaid to any address, delivery guaranteed, for only \$1.20.

*All of these articles are of the latest patterns and best material,
and at bargain prices.*

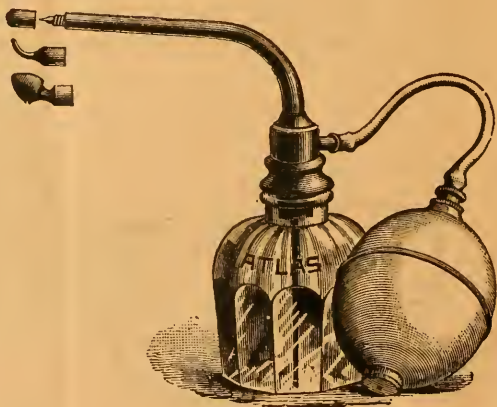

ATOMIZERS.

No. 8 A.

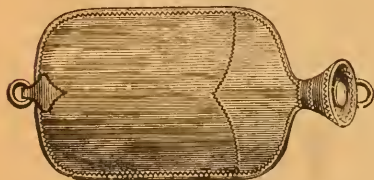

No. 8 A is a great invention. It is a nasal or throat sprayer, or atomizer. In the northern part of the United States catarrhal and throat troubles are unfortunately very frequent, and these sprayers are a necessity. This atomizer is continuous in its action. It has hard-rubber tubes and is made of fine material. It is sent by mail to any address, postpaid, delivery guaranteed, for only 75 cents.

No. 9 A is a continuous atomizer. The tubes are of vulcanized rubber, so treated as to be unaffected by acids. It is the latest and most improved instrument for spraying yet invented. It is sent postpaid to any address, delivery guaranteed, for only \$1.00.

No. 9 A.

We also have a clinical atomizer made on this pattern, designed exclusively for surgeons, for office practice. This last-mentioned instrument we send postpaid for \$1.25.

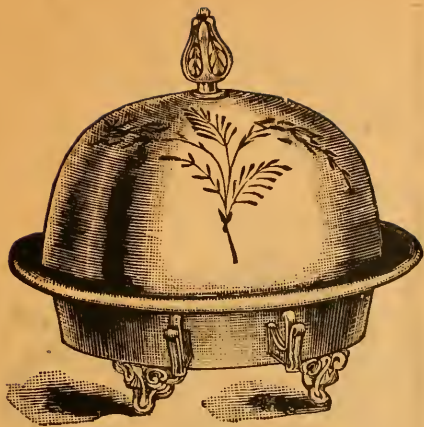

No. 10 A.

Hot-Water Bags.

Rubber hot-water bottles have taken the place of the old-fashioned warming pan or glass bottle. The handle is fastened to the neck of the bottle to prevent scalding the hands when filling. They are guaranteed not to leak. The shape is shown in cut No. 10 A. We have 1 quart, sent for \$1.00; 2 quarts, for \$1.15; 3 quarts, for \$1.20; 4 quarts, for \$1.25. All are sent, postpaid, by mail for the above prices.

Silver Butter Dish.

This butter dish is after one of the very latest designs. It is circular, with a top, and without handles, but with a convenient knife-rest on the side, as shown in the illustration. The entire dish is triple-plated silver on hard white metal, satin finish and hand-engraved. It is sent by express, carefully boxed, receiver paying expressage, for \$1.50, or it is given as a premium for a club of only three yearly subscribers to the *Ledger* at \$2.00 each.

Silver Individual Salt and Pepper.

This set is after a new design. The articles are a gold-lined salt-stand, with a salt-spoon having a gold bowl, a pepper-box, and a satin-lined box in assorted colors. The pepper-box and salt-holder and spoon are all triple-plated silver on hard white metal, satin finish and hand-engraved. This set is sent by mail, postpaid, delivery guaranteed, for 90 cents, or with the New York *Ledger* for one year, postpaid, for \$2.40 for both the silverware and the paper.

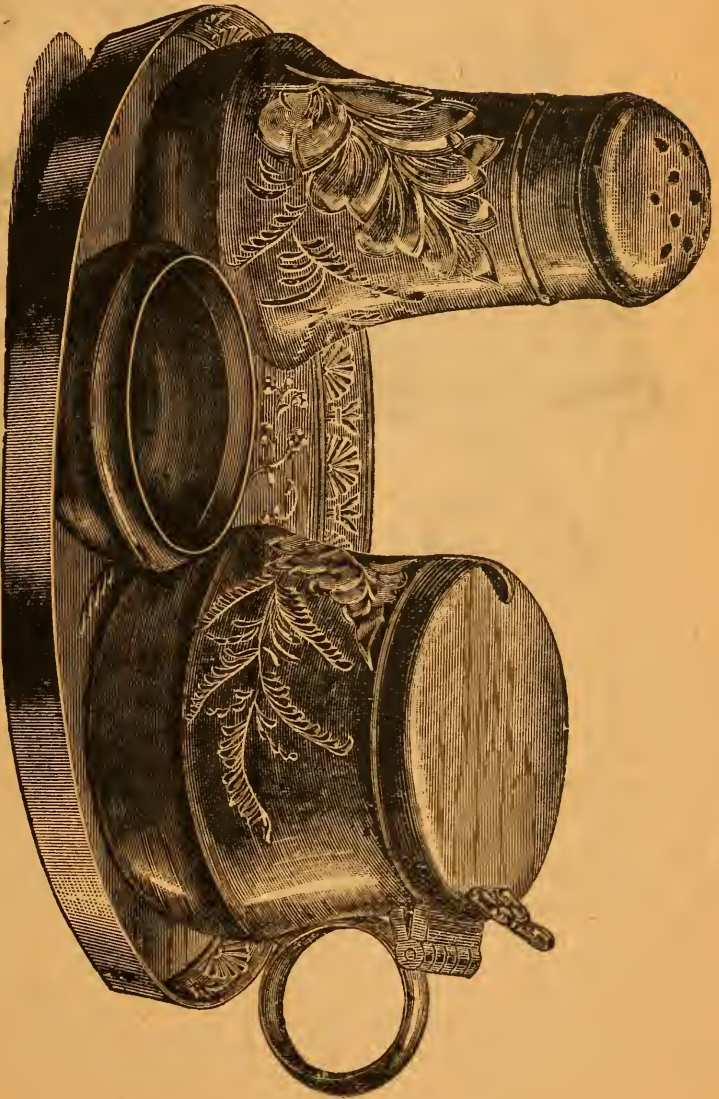

Silver Tea Service.

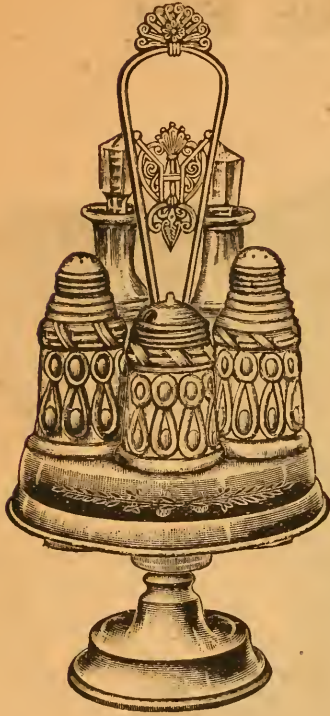

This tea service consists of a teapot, sugar bowl, creamer, spoonholder and a 14-inch round tray. All these pieces, including the tray, or server, are made of the same material. They are triple-plated, satin finished, hand engraved. They are plated on hard, white metal the same color as the silver. The spoonholder and creamer are gold-lined. These goods are sent by express, the receiver paying expressage. They are sent to any address in the United States for \$6.50 for the complete set and the tray, or server; or we will send the creamer, spoonholder and sugar bowl, without the teapot and tray, for \$4.00; or we will send either the sugar bowl, the creamer or the spoonholder, separately, to any address by express, receiver paying express charges, for \$1.50 for each piece. We warrant these goods triple-plated silver on the best white metal used for any silverware. In shipping, we pack each piece separately in a pasteboard box, and then in a strong outer packing of wood or corrugated paper, according to the size of the package, so that they cannot be marred in transit.

SILVER LUNCH SET.

This article is one of the most elegant and useful ornaments that can grace a table. It consists of a pepper box, an open salt stand, mustard pot and tray. They are all of triple-plated silver on hard, white metal, satin finished and hand engraved. The mustard is held in a glass cup which sits inside the silver pot, so that it cannot come in contact with the silver to tarnish it. The salt stand is gold lined. This set is sent by express, receiver to pay express charges, for \$1.50; or it is given as a premium for a club of only three yearly subscribers to the *New York Ledger* for one year, at \$2.00 each. We prefer to give it a way, because this is one of the best things in the catalogue.

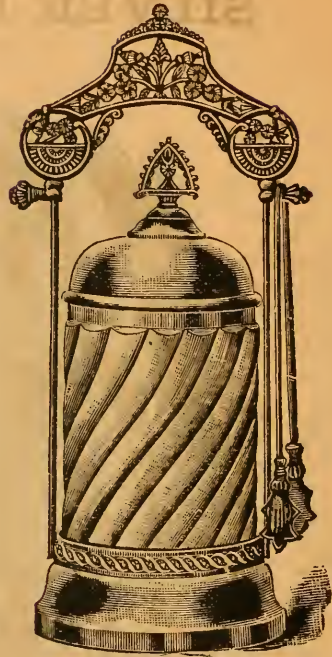

SILVER TABLE CASTOR.

This useful and always fashionable article of table furniture is made of triple-plated silver on hard white metal. It is hand-engraved. There are five fancy bottles, three with triple-plated screw caps, and two with ground glass stoppers. The pieces are all carefully packed, separately, for shipment, and we guarantee against breakage in transit. The castor is sent by express, the receiver paying express charges, for only \$1.50; or we will make a present of this beautiful article to any lady who will send us a club of only three subscribers to the *New York Ledger* for one year, at \$2.00 each.

SILVER PICKLE CASTOR.

The pickle castor is always needed on every table. It is warranted to be triple-plated silver on hard white metal, with clear "crystal" glass bowl. With each castor is sent a pair of triple silver-plated tongs. They are carefully boxed for shipment by express, and we guarantee against breakage in transit. We will send this pickle castor to any address, receiver paying expressage, for \$1.50; or free as a premium for a club of only three subscribers to the *New York Ledger* for one year, at \$2.00 each.

Every Number Beautifully Illustrated.

ROBERT BONNER'S SONS,

Publishers,

Cor. William and Spruce Sts., New York City.

A WONDERFULLY LIBERAL OFFER!

Five Weeks for 10 cents.

A Trial Subscription for THE NEW YORK LEDGER.

Just to convince everybody before subscribing of the true merits of our beautifully illustrated journal, we will send the **New York Ledger** for **Five Weeks for 10 Cents**. These five numbers will contain the opening chapters of the most recent serial story, that is, the first five installments. We make this **Special Trial Offer** because we know that there are very many people who, after they have seen and read 5 consecutive numbers of the **New York Ledger**, will then become regular subscribers. Everybody who sends us **10 cents** for a **Trial Subscription** will have an opportunity to learn that it is the vast quantity of delightful reading matter, of interest to all members of the family, which makes the **New York Ledger** the most perfect **National Family Journal** ever offered to the American people. Your **Postmaster** or the **Local Subscription Agent** will receive your 10 cents for us and send us the money, or you can send it direct to us. Try it, and judge for yourself what a great paper the **New York Ledger** is. If you are already a subscriber of the **Ledger**, or a reader who buys the **Ledger** from a newsdealer, and will yourself make the effort to send us a list of **Trial Subscribers**, we will credit you with **5 cents** for every **10-cent Trial Subscriber** you send us, and this credit of **5 cents** for each **10-cent Trial Subscriber** you can use the same as cash for the purchase of any article in this Catalogue. For example: If you send us **10 Trial Subscribers** at **10 cents** each, making **\$1.00**, we will credit you with **50 cents**, and if there should happen to be an article in the Catalogue for sale at **\$1.50** it will be necessary for the person sending **10 Trial Subscribers** at **10 cents** each to send only **\$1.00** for the **\$1.50** article, because the credit of **50 cents** for the **10 Trial Subscribers** at **10 cents** each will be the same as **50 cents** cash. Our subscribers can send us as many **Trial Subscribers** as they wish, and we will give them a credit of **5 cents** on each **10-cent Trial Subscriber**, no matter how many **Trial Subscribers** they may send. We will give the sender in all cases credit to any amount, and in cases where the amount of credit equals the price of the article in the Catalogue it will not be necessary for the sender to forward any money in addition to the **10 cents** sent for each **Trial Subscriber**.

Any reader who sends a club of 3 or more yearly subscribers at **\$2.00** each, will be entitled to a credit of **50 cents** on each yearly subscriber, to be used the same as cash for the purchase of any article in this Catalogue. Address
